Total all cities, 5 days	\$2,205,659,319 425,019,208	\$2,341,815,579 426,132,040	-5.8 -0.3
Total all cities for week	\$2,630,678,527	\$2,767,947,619	-5.0

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night. We present below detailed figures for the week ending with Saturday noon, May 16, for four years.

#### THE FINANCIAL SITUATION.

The near approach of the adjournment of Congress has been unusually fruitful in rumors of differences and apparent misunderstandings between our legislators and leading officials. It would not be wonderful if this situation should have checked somewhat the buoyancy which has so long pervaded Wall Street. It was not, however, until Tuesday that the stock market exhibited any material reactionary movement. Even now it is not easy to pick out and give expression to the special disturbing cause or causes. We may say, nevertheless, with truth, that Wall Street values have recently been getting somewhat topheavy-away from and above the ideas of the most of those who have a tincture of conservatism left in their veins. Thus none but the coterie which had served as the special spur to the extreme advance was left to continue the movement. Even they for the moment seemed to have withdrawn their support. Perhaps they have gained their ends and aims and for a time at least will leave to natural forces more nearly the direction of affairs.

The unfinished and demoralized state of legislation in Congress and the unrestful rumors this state of affairs had put afloat not unlikely helped in a measure to produce the temporarily hard lines on Tuesday and Wednesday in stocks. We need not go into details of these differences which change from day to day, but seem to be accumulating. Perhaps the rumor that no agreement by the Conference Committee as to currency legislation was likely, may have discouraged speculators. We do not mean by this that any considerable importance will be attached by those most familiar with currency affairs to a disagreement of the two Houses and the abandonment of the effort to patch up a compromise on that subject; but we think it true that a good many of the strictly speculative class hoped that the end reached might produce an inflation measure, and the rumor that there would be no agreement might disappoint all such, producing gloomier views, and consequently lead to a considerable selling of speculative holdings.

Another adverse circumstance has been the large and continuing exports of gold. We are aware that this movement has no importance in the minds of most operators, and so long as call money drops to 1% they will probably pooh-pooh any mention of gold exports as a possible unfavorable feature in the situation. Call money at 1% is not always an indication of the current money market. The borrower must have good Stock Exchange collateral to get money at that rate and even then he will be a risky dealer if he waits to find it. All this week bank officials have told us that they could put out on call all they had to loan at 3% to 5%. Moreover, if the borrower was in need and had nothing but securities off color, he would find that even 6% money was hard to get. Then, too, it is well known that to keep up buoyant conditions after security values have had a long run of that kind of luck needs a good big bunch of the sorts of money our laws provide for enriching bank reserves.

These gold exports, it should be remembered, have also an added significance growing out of a general

their goldstocks. That tendency to enlarge the metallic holdings seems to be a notable feature among European banks. It would be quite natural that the Bank of France should replenish its supply. We well remember the important part it played when we drew about 100 million dollars of the metal from Europe. Of course the Bank of England in such an emergency holds the only really free stock, and it stood up bravely meeting and filling in one way and another its character of entrepot. In what we have said above we had. however, in mind mainly the present position of the Bank of Germany and large banks of Berlin. We noted last week (pages 1192-1193) in addition to an amount taken in New York through Paris to Berlin, a direct movement to Berlin, due to inducements in the form of interest on the metal while it was in transit, which interest enabled cable marks, or possibly sight, to be advantageously employed for the reimbursement of the exporter.

This change in the Berlin sentiment and action with reference to its gold requirements is probably due to the official announcement that "a special commission has been appointed by the Government to inquire into the possibility of amending the banking system in Germany with a view to mitigating the serious strain under which the German money market has labored in recent years. The terms of reference of the commission are elastic, but they have been framed with special regard for the working conditions of the Imperial Bank. About 200 bankers and financial experts will be invited to give evidence before the commission. The proceedings were opened at the offices of the Imperial Bank May 1 by the Under-Secretary in the Home Office, Herr Wermuth, who explained the objects of the inquiry and laid down the guiding principle that the existing currency and the Imperial Bank must be preserved as the foundations of the German bank and credit systems. He further insisted that there could be no question of dividing private banking institutions into stock banks and deposit banks. On the conclusion of Herr Wermuth's speech, the President of the Imperial Bank, Herr Havenstein, took the chair as President of the commission."

The National Prosperity and Sunshine Association. which started under rather favorable auspices at St. Louis three weeks ago, seems already to have lost much of its potency and influence. The early reports conveyed the idea that the purpose of its promoters was to oppose actively and vigorously further legislation adverse to business interests. This idea was also encouraged by the remarks of some of those identified with the movement to the effect that the slogan of the association was to be "Let Us Alone." It appears now that all this was a mistake, or, rather, that it has now been decided not to proceed along the original lines. The change seems to have been the result of a visit of several of the members and promoters of the association to President Roosevelt at Wash-The visiting delegates apparently were somewhat afraid of the Big Father at the White House, so instead of telling the President bluntly that his policy had been very damaging to industrial interests, and that to avoid further harm it was absolutely necessary that this policy should be changed, they proceeded mood Europe has recently fallen into of heaping up to unfold the object of their mission with much circumlocution. "Reforms were imperative," they said. "You, Mr. President, effected them; and to-day the country, realizes the value and potency of the remedy. The Association recognizes the debt the business interests—the whole country—owes you for what you have done." Then, apparently with much diffidence, they came to the subject which had started them on their mission, by adding: "It (the Association) feels now that the time has come to take stock, to call a halt upon radical, hasty and experimental legislation designed to regulate industry."

This left the implication that the President's course had been right and that the blame for the existing situation must be put upon some one else. The President replied in a characteristic way, and took pains to point out that he had not the remotest intention of changing his policy, saying: "Our recent legislation has been good, and it is to the interest of the entire country, and especially the business interests, that it should be enforced. Such further regulatory legislation as is required is merely the building upon the broad foundations that have been laid. It conceals no menace to business any more than that legislation which has already been enacted." We can imagine the grin that must have been upon the President's face when he uttered this latter statement, in total indifference to the industrial distress visible upon every side. He proceeded in this strain throughout his address, and then concluded in these words: "I welcome your work and shall be glad to co-operate with you in any effort to establish prosperity on right and honest lines.

Since the members got back to St. Louis from their visit to Washington, they have been falling over one another, figuratively speaking, in attempts to disavow that their movement had any political purpose. The St. Louis "Globe Democrat" of last Saturday stated that E. C. Simmons, the Chairman of the Prosperity Association, was desirous of correcting the impression which he found in the East, namely that the Association was sailing under the "Let Us Alone" motto. It quotes him as saying: "We do not want to be known as the "Let Us Alone" organization. Our policy is not to fight any interest, political or commercial. Some of our Eastern friends mistook the mission in which we are engaged." It seems that the purpose now is "to make a quiet canvass to see how many employers feel friendly towards the suggestion of setting a day on which manufacturers, railroads and other commercial interests are to put unemployed men back to work." In other words, the intention is to set a day for the resumption of work-the 1st of June appears to be the date agreed upon-then start mills, factories and furnaces, no matter whether any orders are at hand, or are likely to come in, and to act as if nothing had ever been wrong with the business situation. By mere resolve all doubts and misgivings are to be removed and business prosperity brought back. This shows such childlike faith that one could wish it were warranted. But when the noonday sun is hidden by clouds, its light will remain obscured just as long as the clouds themselves remain. In the present instance, the bright sunlight of prosperity cannot be looked for until the obstacles obstructing its path have been removed. Among these obstacles, the most serious has been the destructive policy pursued by the politicians and by legislative and govern-

mental bodies. It was supposed that the National Prosperity Association would direct its energies to that end. It now seems that we are to be disappointed in that regard.

The expression coined a few months ago by a witty Irishman, descriptive of the present lack of employment for the freight equipment of the railroads, seems likely to stick. It is well known that for many months the railroads have had such large numbers of idle locomotives and cars that the problem has been how to store them all. Last February, when all the switches and side tracks in the vicinity of Pittsburgh were blocked with idle equipment, a passer-by asked an Irish carpenter what those huge, barn-like structures on the tracks were. "Thim's our Tiddy Bears," said the Irishman. Hence, locomotives for which there is no work and which have been boxed up to protect them from the weather, are now called "Teddy Bears." The description is an apt one. "Teddy Bears" in the railroad world are costly luxuries, just as are the Teddy Bears that serve as play toys for women and children. There is also a peculiar appropriateness in the designation, as indicative of the era through which the country is passing, for the admirers of our Chief Executive at Washington refer to him fondly as "Our Teddy." We need hardly say that the number of Teddy Bears, or idle freight locomotives, on the railroads is now larger than ever before, and that is the reason for referring to the matter here. The aggregate of idle freight cars, which also are being referred to very frequently as Teddy Bears, is reaching such dimensions as almost to stagger belief. The number of these cars was looked upon as extraordinarily large last February, and was certainly unprecedented (up to that time), when it was reported at 342,828. By March 18 it had been reduced to 296,035, but since then the aggregate has increased with each succeeding semi-monthly statement, until at the end of April the number stood at 413,338. For a time early in the week it looked as if an improvement in that respect were now about to occur, it being reported that the Pittsburgh & Lake Erie, one of the Vanderbilt lines, had revived an order for 2,000 cars given last summer and subsequently canceled. Later, however, came statements that the idle equipment on the Pennsylvania Railroad had been further increased, and accordingly it would seem that we shall have to wait yet awhile for the longedfor improvement.

Speaking at a dinner in this city about seventeen months ago, Secretary Root made the remark that the people will have from some source "the control they need," and if the States fail to duly furnish it, "constructions of the Constitution" will sooner or later be found to vest the power in the Federal Government. Mr. Root also said that every State "is bound to frame its legislation and its administration with reference, not only to its own special affairs, but with reference to the effect upon all its sister States, as every individual is bound to regulate his conduct with some reference to its effect upon his neighbor." As a proposition, this is obviously true and wholesome, the sole difficulty being to ascertain what legislation and administration are proper, with a view to the common good, and then to find some arguments or some power equal to make the States come into line. Mr. Root's

address was soon followed by a pamphlet by Mr. William G. Jordan, proposing what he calls a new element in American politics, "the House of Governors." He would have all the State executives meet annually for a session of several weeks to talk over "vital questions affecting the welfare of the States, the unifying of State laws and the closer unity of the States as a nation." This house would neither possess nor seek any law-making power. "Its force would be in initiative, in inspiration and in influence." The executives would strive to unite on a general basis of action on great questions, to be commended to the legislatures in the usual order.

So Mr. Jordan thinks, and it might prove so. least, there is no prohibition anywhere for such an experiment, and if anything serviceable comes or gives reasonable promise of coming from the conference lately in Washington, the suggestion may acquire It is indisputable force. that divergencies of laws among the States have been a very considerable disturbance all along. Failure to agree on the subject of bankruptcy, for example, is the strongest argument or having a law of Congress to deal with that. Real estate holding and conveyance, trusts, banking, marriage and divorce, and insurance, are some of the important subjects upon which the States do not agree. The desire to escape duplicated and varying oppressions by more than forty States is the sole reason for the attempt-which has no good prospect of successto extend the overworked commerce clause to insurance. The continual plea on behalf of Federal control over commerce across boundary lines is that the States will not undertake (and could not achieve it if they would) any scheme of general application.

An annual confab of executives would tend to become a scheme of party wire-pulling, especially in every fourth year, and it might not do more than release a vast amount of rambling and undigested talk on the entire field of possible human endeavor. One almost shrinks in advance from the wild propositions along the line of attempting to construct virtue and happiness per statutes which might be expected. Yet it is a part of our fundamental idea that unrestricted liberty of talk acts as a safety-valve and tends on the whole towards evolving the soundest possible public opinion. So it seems to us that the suggestion should not be dismissed as quite chimerical.

The immigration statistics for April, made public this week, show a decidedly restricted movement compared with earlier years; as our readers are aware. this has been a very noticeable feature of previous months of the current calendar year. The cause for the extremely light inflow recently is well understood; at the same time many do not realize the full force of the change that has taken place. Instead of the United States continuing to be the haven toward which foreign abor has bent its course every spring in constantly increasing numbers, until in the last three or four years the March, April, May and June arrivals largely exceeded 100,000 in each month, there is now such eagerness to get away that frequently the steamship companies find it difficult to provide adequate accommodations for those who wish to go. And there seems to be no let-up to the outward trend. It expresses more clearly than words could how completely, through the shutting down of our various industries, the

The official statement of immigration for April shows that the aggregate arrivals of aliens from all countries for that month of 1908 were only 41,274, or over 100,000 less than the influx for the month in 1907, when the total was 145,256. Contrasted with April of 1906, an even greater falling off is observable, the movement then having been 150,397. Of late years the bulk of our new foreign labor supply has been drawn from Austria-Hungary, Italy and Russia, and it is of course in the arrivals from those countries that the decreases are now most marked. Less than

shortage of laborers has become a decided over-supply.

it is of course in the arrivals from those countries that the decreases are now most marked. Less than a year ago, frequently in one day more aliens from, say, Italy, passed at New York than now arrive in a month, and it was not an uncommon thing for one vessel to bring more than now come in eight or ten. Austria-Hungarian immigrants in April 1908 made up a total of only 4,280; last year they numbered 39,007. Italian arrivals were less than one-fifth of what they were a year ago, and compare even less favorably with the month of either 1906 or 1905. From Russia and Finland the inward movement was but 5,921, against 19,241 and 30,806 respectively in April of the two previous years, and for the remainder of Europe the comparison for the three years is between 17,548 in 1908, 43,788 in 1907 and 39,617 in 1906. Arrivals from British North America (Canada) and Mexico continued, as for some months past, well in excess of the previous year, but it is only in times like those to which we are referring that the totals are large enough to attract any attention. For the four months of 1908 the total arrivals of aliens reached an aggregate of only 124,392, which exhibits a very decided falling

off from the 404,332 of the period in 1907 or the 403,-

465 for the period in 1906.

While immigration has, as already stated, continued upon a restricted scale, emigration has likewise been unprecedented. We learn from statistics obtained through official sources that departures of steerage passengers during April aggregated 77,023, or 62% more than the inward flow, and that for the four months of 1908 the alien emigration aggregated 243,023, as against only 80,427 for the like period in 1907. It is a simple calculation, therefore, to ascertain that, whereas in the four months of 1907 we gained 323,905 through the movement of aliens, this year there has been a net loss of 118,631. Furthermore, the outward movement is still actively in progress, the departures thus far in May having continued on a very full scale, and immigration promises to be smaller than in April, the arrivals at New York to date being only about 16,754. In the light of the results for the four months, it would seem that the estimate we made last February that the country would not be more than a nominal gainer in foreign population in the calendar year 1908, was conservative. If we were inclined to modify that statement in any way, it would be by saying that indications are for a loss rather than a gain.

The American Cotton Manufacturers' Association, which particularly represents the branch of the industry located at the South, held its twelfth annual convention at Richmond, Va., on Wednesday and Thursday of the current week, and proved a fitting supplement to the National Association meeting at Boston in April. Special effort had been made to bring together a large and representative gathering,

the Secretary in his preliminary announcement of the convention laying particular stress on the urgent need for action to meet the unprecedented conditions now prevailing in the industry. Subjects of a more or less technical nature, but of absorbing interest withal, were presented and discussed, the address by Mr. Arnold B. Sanford of Boston on "Fine Cotton Spinning in the United States" and remarks by Mr. W. H. Harriss of Atlanta, Ga., on cost of production, &c., of the raw material being highly instructive. Greatest general interest, however, attaches to what was referred to in the addresses by President Tanner and others preliminary to the actual work of the convention.

In an extended address of welcome, Mr. S. D. Crenshaw, representing the Chamber of Commerce and commercial interests of Richmond, referring to the supremacy of America in cotton-growing, expressed belief that eventually it would also be supreme in spinning.

Ex-President Lowe, in responding to the address of welcome, took occasion to reply to some of the criticisms that have been directed against the cotton manufacturers of the South. Premising his remarks with the statement that he operates a mill in Alabama, he forcibly repelled accusations of cruelty, unkindness, child-driving and white slavery. He said: Southern cotton manufacturers have done more to alleviate the condition of the class they are accused of oppressing than all the philanthropic organizations in the world. They have brought people from the mountains, where they lived almost like animals, in homes that were unfit to live in, out into the sunshine. I doubt if there is in the world among that class of people a body who are more happy or healthful." Coming from a man of the standing of Mr. Lowe, this forceful statement carries great weight and is certain to bring conviction to reasonable men.

President Tanner in his annual address touched upon many important points. He referred to lack of appreciation shown by labor in the mills for the considerable increase in wages accorded during the prosperous period, refusing to perform the same amount of labor for the greater pay, and in other ways hampering the operation of machinery at a time when the demand for goods was greatest. Cancellation or attempts at cancellation of contracts for goods came in for some attention, and the urgent necessity of formulating a uniform and binding contract was impressed upon the assemblage. Adverting to the apparently unfavorable situation that confronts cotton manufacturers, Mr. Tanner stated that numerous requests had been received suggesting that a meeting of the association should be called to consider ways and means of relief. It was the opinion of the board of governors that nothing could be thus accomplished. The inadequacy of our currency system was referred to by Mr. Tanner and he also spoke of the need for tariff

The most important action taken on Thursday was the adoption of a report submitted by the committee on cotton exchanges, which covered the demand of spinners for a better contract on the New York and New Orleans exchanges. The report in effect pointed out that the New York contract in particular in its present form is valueless as a hedge, the differences between the value of the contract and the price of spot cotton often entailing heavy losses. Recommenda-

tions were made that if adopted by the exchanges, would prevent the delivery on a single contract of as many grades as are now tenderable, and would give the buyer of cotton the option of requiring the delivery of staple of specific grade. At present, as is well known, the advantage is entirely with the seller, the contract permitting him to deliver any quantity of any of a number of grades. The improvements suggested, it was contended, would serve to bring the price of contracts up to a parity with spot cotton. That is, of course, not the case under existing conditions, the spot price of middling yesterday, for instance, having been 11.10 cents, whereas the May option sold at 9.84 cents. The report concluded with an expressed disapproval of the New York contract and a hope that the Exchange will realize its defects and sincerely attempt to remedy them.

There was no change in official rates of discount by any of the European banks this week; open market or unofficial rates were easier at all the chief centres, and those at Berlin were low enough to justify a reduction in the German Bank rate.

The most notable differences between the statements of the average and of the actual conditions of the New York Associated Banks last week were in the items of loans, cash and deposits. Average loans increased \$4,777,800; actually there was a gain of \$10,965,200. Cash was augmented, according to the averages, \$2,-197,700; there was an actual decrease, however, of \$648,200—the differences in this item were doubtless due to the fact that withdrawals of gold for export to Europe were chiefly effected after the middle of the week. Deposits showed an average gain of \$5,895,700; the actual increase was \$9,853,200. There was an augmentation in the average reserve of \$723,775, to \$64,607,250 surplus; there was, though, an actual decrease in this item of \$3,111,500, to \$64,001,225. Public deposits decreased \$5,587,500, reflecting surrenders of such funds by the New York depositories on the previous Saturday; to-day (May 23) the final installment of the call by the Secretary of the Treasury of April 28, requiring the surrender of 25 millions, will mature, thus completing the amount of 45 millions public funds recalled from the depositories throughout the country.

The Comptroller of the Currency issued a call on Wednesday for a statement of conditions of national banks as of May 14. Responses to the call promptly began to be received on the announcement thereof, and those thus far made public show, among other facts, a large increase in deposits, especially by banks in Western centres.

Though nearly 13½ millions were withdrawn from the New York banks during the week for export to Europe, and though surrenders of public funds were in progress, in anticipation of the maturity to-day (Saturday) of the Treasury call for the surrender of 25 millions—of which probably one-half will be taken from the local depositories—the market for money showed no improvement as the result of this actual and immediately prospective reduction of about 38 millions in the cash reserves of the banks, indicating a condition of congestion almost without precedent. Instead of improvement in the market, there was a new record of low rates for money on call, loans being

effected at 1% for the first time since 1904, when they were quoted at 1/2@3/4 of 1%; later this week there was a recovery to  $1\frac{1}{2}$ @ $1\frac{3}{4}$ %, but the market was by no means active. The abnormally low rate of 1% on Monday and on Tuesday was attributed to offerings by trust companies, which were in competition with banks in the effort to secure some advantage, though it might be small, by directly pressing their balances upon the market instead of leaving them undisturbed with their depositary banks. Time loans were easy, influenced by free offerings; with money on call ruling at current figures, borrowers were, however, indisposed to accept contracts for short maturities or even those which would carry them into the beginning of the crop-moving season, and the inquiry for fixeddate loans was chiefly confined to those for the overthe-year period.

Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week at 134% and at 1%, averaging 1½%; all institutions quoted 1% as the minimum. The abovenoted rates of 13/4% and 1% were recorded early in the week; thereafter they were 13/4@11/2%. Time loans on good mixed Stock Exchange collateral were 21/2@23/4% for sixty and 3% for ninety days, 31/4% for four,  $3\frac{1}{2}\%$  for five and  $3\frac{1}{2}@3\frac{3}{4}\%$  for six months and 4@41/2% for over the year. Commercial paper was in good request for the choicest names, but the supply thereof was only moderate; though good to ordinary paper appeared to be plentiful, it was not attractive to buyers. Rates for first-class sixty to ninety-day endorsed bills receivable and for this grade of four to six months single names are 3\( 4\%, preference being given to the latter maturity; good paper running for these periods is  $4@4\frac{1}{2}\%$ .

The Bank of England rate of discount remains unchanged at 3%. The cable reports discounts of sixty to ninety day bank bills in London 2%. The open market rate at Paris is 2% and at Berlin and Frankfort it is 3½%. According to our special cable from London, the Bank of England gained £542,010 bullion during the week and held £37,571,279 at the close of the week. Our correspondent further advises us that the gain was due wholly to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £40,000 (of which £33,000 from Egypt and £7,000 from Portugal); exports, £152,000 (French coin), and receipts of £654,000 net from the interior of Great Britain.

The notable feature of the foreign exchange market this week was its strength. Ordinarily, when gold exports are in progress, the market is affected, in a greater or lesser degree, by offerings of bills which are drawn and sold for the reimbursement of the shippers of the metal. It would appear that this week few bills have been drawn for reimbursement; the exports of gold have been largely effected directly through francs or marks and practically none through sterling. Moreover, as elsewhere noted, much of the gold sent to Berlin has been transferred by cable order by the shippers for substitution for credits which have been established and employed by them, through their correspondents. This process of transfer, it may be observed, is similar to that to which resort was had

early last year, when gold was being shipped hence to Paris, though then the consignors were represented in New York by an agent who accepted, for his principals, the gold on its delivery on shipboard, and, upon advising these principals of this fact, the consignees were authorized to draw cables for their reimbursement. In this way the time-cost of the export was eliminated; by the process here described such time-cost is offset by the ability of the consignee to draw interest on his consignment not only while it is in transit but for the further period of three weeks, which the Reischsbank offers as an inducement to Berlin importers of gold.

The foreign exchange market was strong last week, not alone because of the absence of offerings of bills for the reimbursement of shippers of gold, but for the reason that there was an insufficiency of bankers' drafts to meet the requirements of remitters. Such requirements resulted from sales of securities for European account, as was the case in the previous week, to realize profits; commodity exports were small, and hence the supply of exchange was limited. Easy discounts at London contributed to firm rates for long; cables were in request for prompt remittance and short to reinforce balances that were drawn upon through cables, while continental bills were in demand for operations incident to the gold movement.

Exports of gold during the week were \$7,100,000 on Tuesday and \$6,355,000 on Thursday, chiefly to Paris; this makes a total of \$13,455,000 for the week and \$31,710,000 to Europe on the present movement, which began in April. The supply of gold bars in the New York Assay Office, available for export was exhausted on Wednesday, and, as had been the case early in the week, gold coin had to be accepted by some of those shippers who could make such forms of the metal available in Berlin. The deficiency in supplies of gold bars will probably be met with new metal of this character next week, so that exports of bars will then be resumed. The Assay Office plant has been dismantled, preparatory to the reconstruction of the building; consequently the former facilities for the manufacture of commercial bars have not been enjoyed; hence the deficiency in the supply. The office, since its dismantling, has operated on small, or jewelers', bars, but though these are comparatively abundant, they are not acceptable for export. There are considerable amounts of smelters' bars which are of a more or less low grade of fineness, and moreover they are heavier than are standard bars, and therefore are not desired by shippers. Through treatment of these smelters' bars they can be made to conform to exporters' requirements, as regards fineness and weight, and though there may be some delay in the preparation of these forms of the metal, it is expected that the shipments of gold will not be greatly retarded; where coin is acceptable, it can be procured in any reasonable amount. From present indications the movement of gold hence to Europe will continue until relatively higher rates for money here than for discounts abroad, especially in Germany, shall make exports unprofitable. If, as is reported, the Secretary of the Treasury shall call for the surrender of 50 millions public deposits in the near future, such recall of funds from the depositary banks may contribute to a reversal of relative monetary conditions so that the movement of gold to Europe will be arrested.

The foreign exchange market was easy on Saturday of last week, partly in sympathy with the announcement of new engagements of gold for export, and, compared with the previous day, long fell 10 points to 4 8510@4 8515, while short and cables were 5 points lower at 4 8705@4 8710 for the former and 4 8730@ 4 8735 for the latter. On Monday gold engagements ceased to be an influential factor, and the market was firmer in response to a demand for remittance: long was unchanged, but short rose 10 points to 4 8710@ 4 8720 and cables 15 points to 4 8745@4 8750. On Tuesday long was 5 points higher at 4 8515@4 8520, short 10 points at 4 8720@4 8725, and cables 5 points at 4 8750@4 8755. On Wednesday the market was dull and steady, with short and cables unchanged, and long 15 points higher at 4 8530@4 8535. On Thursday the tone was heavy at a decline of 5 points for long to 4 8525@4 8535, of 5 points for short to 4 8715@ 4 8725 and of 10 points for cables to 4 8740@4 8750. On Friday long was unaltered, while short and cables were 5 points lower.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Frt., May 15	Mon., May 18	Tues., May 19	Wed., May 20	Thurs., May 21	Fri., May 22

a The division (between gold and silver) given in our table of coin and builton in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heiler astead of Guiden and Kreutser. The reduction of the former currency to stering ounds was by considering the Guiden to have the value of 80 cents. As the Kronen as really no greater value than 20 cents, our cable correspondent in London, in dreft to reduce Kronen to Pounds, has altered the basis of conversion by dividing he amount of Kronen by 24 instead of 20.

4 The total of gold in the Bank of Russia includes the balance held abroad—

of the total or good in the Bank or Russia includes the balance held abroad that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-wanter of the total.

## ARBITRATION AND JAPAN.

Among the measures of real importance which have remained for action by Congress in the closing days of the session, there is one on the calendar which has attracted comparatively slight attention, but which, for reasons which every one will recognize after a little reflection, has practical bearing of great importance on the existing international situation. We refer to the general arbitration treaty with Japan, which was signed by the State Department and the Japanese Ambassador a week and a half ago, and which carried the harmonious understanding between these nations to a point where it is difficult to see what legitimate cause of friction could arise.

It is not without significance that the signing of this document should have occurred with so little sign of public interest or excitement, whereas the hurlyburly of last summer over the anti-Japanese riots on the Pacific Coast, and over the alleged prospect of retaliation by Japan, were favored with alarming headlines in the newspapers and discussed at clubs and offices with the greatest animation. The contrast between the reception of the two incidents merely goes to prove, we should say, that it is your jingo orator who makes the loudest noise and gets the widest hearing from the curious, but that it is the steadfast advocate of international comity and good order who is apt, in the long run, to have his way, through methods of quiet argument and deliberation. The simple fact that the signing of this treaty was in contemplation at the moment when our battleships started for the Pacific Ocean, on a mission which some of our newspapers described as "terrorizing Japan," and that the document should have been signed and sealed before the ships had reached the Japanese coast, is significant as to the real nature of the situation. There has, in fact, been a bit of humor in the assumption, by the bellicose portion of our press and people, that the cruise of our fleet to the Pacific Ocean would "open the eyes of Japan." Since when, one is tempted to inquire, has the Japanese Government been asleep in matters of naval information? The simple truth of the matter is that Japan signed the arbitration treaty with full knowledge of our naval position, and that we signed it in full knowledge of hers, and that the one party was no more coerced or frightened into such action than the other.

The signing of such a treaty, coming after similar action between such important European nations as England and Germany and England and Russia and between our own and the European governments, shows a movement of events in the direction of international peace, supplementary to and largely independent of the Hague conference. To a certain extent it supersedes the Hague arrangements. There has been a very general disposition, during and since that recent international conference, to point to its results as a rather absurd breakdown of expectations. We are by no means sure that this description of the Hague conference itself would be correct, and we are strongly inclined to think that the incidents of international harmony and diplomatic good-will which have

occurred at the same time as this international gathering are in a way an expression of the sentiments which the Hague conference has done much to create.

Both of these inferences have been adopted in a recent article on the last international conference by Professor Westlake in the London "Quarterly Review." Professor Westlake's description of the popular sentiment underlying the demand for these international conferences sums up the matter clearly and concisely: "The burden of taxation caused by vast armaments and the cost of keeping them abreast with invention; the fear of the still greater losses which would attend even a short war; armies increasing automatically by the general liability of bloody battles and devastating invasion on a scale increasing with the increase of armies—all this has been more acutely felt as manners have become simpler and life easier, and therefore more valuable."

The value of the Hague conference unquestionably lay, as the same author has pointed out, in "the light which it has thrown on the disposition of certain governments towards the principle of neutrality in naval war and the attitude of the British Government in defense of those principles." In other words, the mere fact that proposals of so startling a novelty have been thrown into the arena of peaceful diplomatic discussion was of itself an achievement of the first importance. They might not be unanimously approved; but it must not be forgotten that when a humane proposal of this sort has been placed before a responsible diplomatic body, the real burden rests on those who oppose it-a very different situation from what has existed heretofore. On almost all previous occasions it was possible to say that the diplomat or the nation advocating innovations of this sort was placed in the attitude of a dreamer, regarded with pity and incredulity by practical diplomats of other States.

It is only by comparing the mental attitude in matters of this sort, at one time and at another, that we can realize what is actually accomplished through such conferences, even when seemingly barren of results. In the agreement of the Hague conference for arbitration of disputed foreign, debts of such States as the South American republics-an arrangement which ought to put an end to the dangerous episodes of foreign men-of-war threatening American ports-it will be seen that one awkward factor in recent diplomacy has been disposed of. The fact that bombardment of undefended cities was in this conference for the first time forbidden by the agreement of all the States is a further illustration of real progress. Furthermore, all students of the work of the recent conference have reached the conclusion that a long preliminary step was taken at the Hague toward securing the immunity of peaceful trade during international hostilities.

Such results, taken together with the tendency of the larger States to reach between themselves explicit agreement on possible matters of dispute and friction, indicate a tendency toward guaranty of peace in any but the most extraordinary conditions, which bids fair in time to become irresistible. We know of no stronger illustration of this tendency than the amicable progress of the negotiations for the treaty between this country and Japan at the very moment when the outcry was loudest over a coming breach between the two nations.

## FAVORING ELEMENTS IN THE SITUATION.

The great advance which has occurred in values on the Stock Exchange during more recent months seems to be both perplexing and mystifying to the average investor and the general public. The present week there have been repeated sharp breaks, and the market at times has acted as if it were experiencing a serious set-back. Nevertheless, even after this marked reaction, prices in general stand higher than they have been for twelve or eighteen months past, and in numerous instances in an even longer period of time. Except that the course was interrupted in February, the forward movement in values has been in progress ever since the first of the year, and the upward swing has carried prices back not only to where they were before the panic last October and November, but also above the level prevailing prior to the great break in August last year and also above the level ruling prior to the tremendous collapse which occurred in March of that year.

What makes the movement particularly noteworthy and particularly difficult to understand is that, as far as the state of trade and the course of railroad earnings are concerned, there is apparently no sound basis for the improved tone and the sharp rise in prices. Up to the present time there has been not the slightest sign of any revival in business. On the contrary, through nearly the whole range of the country's industriesbarring an occasional announcement of the resumption of work here and there-the depression has become steadily more pronounced and the gloom pervading business circles (as far as surface indications go) has been growing deeper. The latest report on the state of employment of the freight equipment of United States railroads, issued last week, and giving the statistics for April 29, indicated a larger number of idle freight cars than at any previous date, the aggregate of such idle cars being no less than 413,338. As far as returns of railroad gross earnings are concerned, the ratios of decline seem to keep increasing instead of diminishing, having been for the month of April nearly 20% and for the first week of May 21.02% and for the second week of May 20.62%.

To what, then, must the wonderful change for the better in security values be ascribed? That there has been manipulation, and a great deal of it, admits of no question. Evidences of it have been visible on every side. And yet, the very circumstance that financial interests with the necessary capital and power to effect their purpose have been engaged in an undertaking of this kind is itself strong evidence that underlying reasons exist that seem to warrant a higher level of values-certainly recovery from the extremely low basis reached in the closing months of last year. It appears to us, too, that if a broad and general survey of the situation be taken, many causes can be found for regarding the future with greater hope and confidence than a short time back. We do not mean to assert that the height to which prices have now been raised is a safe one. It is quite likely that the movement has been or will be carried too far. That usually happens in the speculative arena. Improvement to come is discounted too fast and too confidently. In the present instance there has been altogether too much whirl and swirl to make it wise to disregard the ordinary rules of prudence and caution. At the same time, it would be equally a mistake, in our judgment, either totally to disregard or to place too low an estimate upon the influences and agencies at work tending to produce a great change for the better.

To our mind, the chief source of the country's troubles has been political. Accepting this hypothesis, no careful student of events can fail to have noticed that elements of danger from that source have been perceptibly diminishing in recent months. It is not so long since it seemed there could be no limit to the political influences at work detrimental to business interests. A craze had swept over the country carrying with it politicians of every shade and description. State legislatures and Government officials, both State and Federal. Such tremendous headway did the movement make that many began to entertain fears even regarding the stability and continued soundness of our judges and courts. But the overwhelming catastrophe which came last autumn, together with the industrial collapse that has followed in its wake, has proved an eye-opener-a blessing in disguise. Public sentiment has rapidly been changing. The change has been visible and notable in the remoter sections of the country rather than in the acts of our executive officials at Albany and Washington, but even these latter are beginning to act as if they had seen a new light. The sole aim of the politician is to please the populace-and there has been a heap of politics in what has been done at Washington and the State capitals. Let him once become aware that his assaults on railroads and other industrial agencies are no longer meeting with popular approval, are in fact deprecated and deemed hurtful, and he will quickly change his course. This is the stage toward which we appear now to be drifting.

Is it not a hopeful sign when we find the Governor of Oklahoma vetoing an anti-trust bill passed by the Legislature of that State and putting his veto on the express ground that the measure goes too far, as the news of this week tells us was done? The dispatches say that Governor Haskell objected particularly to Section 2 of the bill, which would permit the Attorney-General of the State to go before one member of the Supreme Court and have a receiver appointed for an offending company without giving the defendant notice. Mr. Haskell would have the entire membership of the Court pass upon such matters and the defendant be given an opportunity to be heard before a receiver is named-which obviously would be merely ordinary fairness and justice. It is of course possible that the action in this instance of the Oklahoma Executive may be less important than it seems on its face and that it has not the significance attached to it in the public mind. We mention it here because it is the latest of a number of indications of the same kind. and because it cannot be wholly without some significance, seeing that Oklahoma last year when admitted to Statehood adopted a Constitution more drastic in the limitation and restrictions imposed upon the free play of natural laws than that of any other State in the Union. When a body politic of that kind shows even the slightest indication of leniency and moderation, it is surely cause for much satisfaction if not for genra-el rejoicing.

Moreover, there has been a modification of sentiment in other parts of the country, and more particularly in the South. The reader will recall how last

anti-railroad laws and got into conflicts with the Federal courts in the efforts to enforce such laws. But the suffering endured by the railroads—the heavy losses in earnings sustained by them, even before the advent of the financial crisis-quickly made it apparent that such legislation and Government action were hurting the South itself most of all. The moment this fact was established the Southern people acknowledged the error of their course and began to retrace their steps. The decisions of the United States Supreme Court have since rendered much of the hostile legislation of last summer nugatory, but the fact we wish to impress upon the mind of the public is that long before these decisions were announced, compromises had been reached between most of the Southern States and the railroads on the basis of more satisfactory rates than those which the States in their earlier legislation sought to impose.

Another fact of the highest importance as far as the future is concerned is that fears regarding the reliability of the courts in time of political danger have proved in large measure groundless. Last year it seemed at times as if our courts could no longer be depended upon to protect property rights, safeguard vested interests and uphold constitutional mandates. The \$29,000,000 fine imposed in August upon the Standard Oil Co. did as much to disturb confidence and precipitate the panic as any single event. But during the present year we have had a series of decisions from the United States Supreme Court which would have been notable in any event, and are particularly notable at a time when it was so essential that apprehensions should be quieted and complete assurance be given as to the absolute reliability of that highest and final judicial tribunal. The judgment this week declaring invalid a Texas law of 1905 taxing railroad gross earnings of inter-State railroads on the ground that this was an effort to regulate inter-State commerce and therefore beyond the power of a State, is a small matter alongside of the decisions of the same Court in previous months, all going to show that faith in the inherent soundness of that Court have not been misplaced.

We may note, for instance, the decision handed down on Jan. 27 declaring unconstitutional Section 10 of what is known as the Erdmann Law approved June 1 1898 and which sought to interfere with the freedom of inter-State carriers in hiring employees. The Court held that it is not possible for Congress to restrict the employer in his right to employ whomsoever he likes and in whatsoever manner he likes any more than the employee can be compelled to part with his services except in his own way and upon his own terms. On Feb. 3 came an equally important decision in which the Court decided that labor unions were amenable to the Sherman Anti-Trust Law and that damages could be obtained from a labor organization engaged in a boycott against a firm which had not met the demands of the labor union. Finally, we may refer to the decision handed down March 23 in the matter of the railroad rate laws of Minnesota and North Carolina in which the Court overruled the ingenious plea that had been set up by the States to the effect that the Federal Court could not interfere with the enforcement of a State enactment, no matter what its character, because such interference would summer one State after another in the South passed be an invasion of the rights of the States.

In other directions also developments during the last three or four months have been of an encouraging nature. Recall, for instance, the extraordinary message sent to Congress on Jan. 31 by President Roosevelt, so bitter in tone and so intemperate in expression, and contrast it with the similar messages sent by Mr. Roosevelt to Congress in March and again in April, urging the same thing, and yet so much softer in language and so much more moderate in tone. If the President's purpose remained unchanged, at least the later messages showed conciliatory methods entirely absent from the President's previous acts. The Jan. 31 message, together with other unfavorable political happenings of the same kind, brought about the revulsion in the stock market which was such a distinct feature in February after the great change for the better in January, and which came near undermining again that confidence in a better outlook which is essential to a sustained improvement in values.

Consider, also, how the possibilities of further inimical legislation on the part of Congress have dwindled with the progress of time. It is conceded now that Congress will adjourn in the course of a very short time. It is also conceded that most of the legislative measures which it was feared that body would put upon the statute books will fail. In particular, the bill for amending the Anti-Trust Law demanded by Mr. Roosevelt, and which would in effect give the Federal authorities power to decree the life or the death of inter-State carriers, has been abandoned. Only a few short months ago the President laid down a legislative minimum to which Congress must conform before adjournment; otherwise it would be re-convened in extraordinary session-perhaps in mid-summer. Now, we are no longer treated to talk of this kind. In view of the political exigencies, the President has become reconciled to the situation. That means one important element of danger removed. Furthermore, we must not forget that the present Congress will expire the 4th of next March, and the President's term of office will expire at the same date. Accordingly, the next session will be a very short one, at which it will hardly be possible to accomplish much more than pass the appropriation bills.

As far as the Presidential nominations are concerned, the outlook is also more promising. The talk of compelling the President to accept a third term, notwithstanding his emphatic declination to receive the nomination, has largely ceased, and the indications point very strongly to the nomination of Secretary Taft. In financial circles the disposition in recent months has been to regard Secretary Taft with increasing favor. It appears to be felt that, if left to himself, his incumbency of the Presidential office will be marked by wisdom and common sense. Then, Mr. Roosevelt has latterly let it be known that, after he retires from office next March, he intends to make an extended sojourn abroad, in order that Mr. Taft, in case of his election as Mr. Roosevelt's successor, may have an entirely free hand in the administration of the office. So far as the Democratic nomination is concerned, there is also a lessened feeling of concern. Mr. Bryan is by no means having his own way, and seems likely to be defeated in his attempt to secure the nomination. Should he get the nomination, he could not be elected, but if, unfortunately, he should secure the prize, he the other hand, if a conservative Democrat should secure the nomination and be elected, no harm to the country could result.

If to all this we add certain favorable developments in the railroad world, such as the avoidance of a receivership for the Erie Railroad, which a month ago seemed imminent, the great success attending the offering of the \$40,000,000 loan of the Pennsylvania Railroad, and the announcement this week of the financing of the needs of the Southern Railway, and, furthermore, the efforts making to secure a somewhat higher level of freight rates for the carriers—taking all these into consideration, it must be admitted that there is much room for feeling encouraged.

Of course, everything depends upon whether an early revival in business can be counted upon. Usually, when the tone improves at the financial centres industrial affairs also improve. It may be that expectations in this regard will be disappointed, in degree if not in kind. It may be, too, that the Presidential canvass may develop some disturbing features not now counted upon. These are always possibilities, and the advance in prices has proceeded so far that it is more than ordinarily important that they should not be lost sight of, lest a renewed collapse in values make our last state worse than the first. At all events, it is best to go slow and not incur any new dangers of that kind. The facts we have cited above, however, show very clearly that back of and behind the rise in prices and improvement in tone there is a solid substratum of encouraging developments which gives full warrant for a more cheerful feeling and for hopes of steady progress towards improved results as soon as the Presidential nominations are out of the way.

## A NEW WAY OF GETTING RID OF CONSERVATIVE JUDGES.

A few months ago we incidentally mentioned that a proposition had appeared in Congress to give the Executive the power of removal as well as of appointment of Federal judges. Bills are now in the House Judiciary Committee which provide that any judge in any Federal court shall be entitled to a continuance during life of the salary payable to him at date of his resignation, provided he resigns after attaining the age of seventy and having served ten years; but, by the terms of the bill, the pension is conditioned upon resignation within ninety days after attaining the age and serving the term mentioned; of course, the application to judges already seventy years old and having served ten years would be that resignation or loss of pension must follow within ninety days after the law took effect. This proposition is unlikely to come up for action in the present session, and perhaps has no prospect of serious consideration at any time; yet it is not untimely to note its effect.

office next March, he intends to make an extended sojourn abroad, in order that Mr. Taft, in case of his election as Mr. Roosevelt's successor, may have an entirely free hand in the administration of the office. So far as the Democratic nomination is concerned, there is also a lessened feeling of concern. Mr. Bryan is by no means having his own way, and seems likely to be defeated in his attempt to secure the nomination. Should he get the nomination, he could not be elected, but if, unfortunately, he should secure the prize, he would be held in check by a hostile Congress. On

next President would have opportunity to re-constitute more than a third of the Court, unless some of the four decided to accept the penalty and remain.

It is, of course, obvious that ten years of service on the bench ought to improve the judicial temper and ability, and that attaining seventy years of age ought not to and does not impair either; on the contrary, all experience proves that if there be any real truth in the motto "young men for action," there is quite as much in the other part of it, "old men for counsel." As well as anything in life can be, it is ascertained that, up to the time when the faculties are weakened by bodily decay, increasing age also increases impartiality, insight, the sense of responsibility, and all qualities which tend to sound judgment; nor has it been found necessary to provide particularly for retirement when superannuation comes, for men recognize the fact and step down of themselves.

Appointment and election have both had trial as a mode of designating men for the bench; each method has merits and advocates, and each is subject to imperfections in results. But when a judge has been named by a fairly competent Executive, under a due sense of the motives which ought to govern, and when he is protected by a life tenure from personal dependence on political fluctuations, he is as far removed from emotional currents and temporary passions, and as much in the environment and possibility of strict justice, as is attainable in this imperfect life. The greatest judge is still human; his judgment and impartiality are relative; it is not quite possible for him to keep wholly unaffected by what is going on in the country, or, perhaps, to be wholly unswayed (perhaps unconsciously) by considering the effects of a course which he may deem intrinsically right and just. there is no better way devisable; if truth and right cannot be established and held firm through tribunals of last resort constituted in this manner, we cannot have them at all.

The trace of human imperfection, however, must be accepted. The Supreme Court has once reversed itself in a memorable case, apparently on considerations of political expediency, and its own composition has once been partly shaped with some reference to a particular course on a particular subject. When we come to consider the motives of the Executive in making appointments, the likelihood of making them with reference to particular questions rather than to fitness exclusively becomes very much greater.

Of late years, we have "policies," driven with a power and determination, and with a notion of the end justifying the means, such as were formerly unknown in our political history. There is a centralizing tendency, and there is a centralizing accomplishment, such as is new; we have even seen the Executive publicly criticising a decision of a Federal court as being wrong and one which certainly cannot stand. When we have an Executive who commits himself to specific courses which he is determined to have adopted, it would be humanly impossible for him, even if he sincerely intended to make impartial selections, to avoid considering how men suggested for the bench are likely to act with respect to those courses. In the natural course of events, several vacancies in the highest Court are liable to occur during a Presidential term of eight years; the thought of forcing more vacancies during a term is, therefore, one to make us pause.

There is a saying that no man becomes suddenly base, which is only a terse way of saying that all character and life, bad or good, come by growth, each successive stage preparing the way for the next and making that easier. Men go, step by step, up or down where they would have started back had the whole been presented at once. For a forcible example right at hand, it is indisputable that if the Public Service Commission scheme as we now have it in this State had been proposed, only ten years ago, it would have been buried in a storm of public protest, had anybody cared to take it seriously. Yet we have it now, and many another aggressive monstrosity is embodied in law or is proposed, without even attracting much mention, just because it has all come upon us a bit at a time and we have gradually got wonted to it.

It is not to be doubted that we shall work out of this and there is no real cause for pessimistic forecasts. Yet, is it not time for sober-minded people to resolve that the judiciary shall be kept unimpaired, come what may? The way to keep that unimpaired is to let its foundations alone. The judiciary is our last resort and bulwark. If that were impaired, there would be nothing left but to go back and reconstruct from the foundations.

### 

Complete returns of the gross and net earnings of United States railroads for the month of March are now available and the results are exceedingly unfavorable. We have had occasion several times to point out that the showing has been growing steadily worse since the beginning of the current calendar year, and the figures for March now submitted furnish full corroboration of the fact. Unfortunately, too, there is every reason to believe that the exhibit for April, when full returns shall be received, will be even poorer, and according to present indications it looks as if the results for the current month of May would be worst of all.

We have returns for March of both gross and net earnings from roads comprising an aggregate of 152,058 miles of line. These roads show a loss in gross earnings of no less than \$21,531,681, as compared with the corresponding month of last year. In addition we have returns from 34,377 miles more of roads which furnish returns of gross alone. Combining the two we get a loss in gross earnings on an aggregate of 186,-435 miles of road of only a trifle less than 25 million dollars—in exact figures \$24,940,261. As the total railroad mileage of the country is, roughly, 220,000 miles, it is within the mark to say that if we could have figures for the other 34,000 miles of road, the loss for the entire railroad system of the country would be shown to be not less than \$30,000,000, which is at the rate of \$360,000,000 a year. The result is the more remarkable inasmuch as in March suspension of work at the bituminous coal mines throughout the country had not yet begun-in fact, in that month mining in some districts was prosecuted with especial vigor in anticipation of the stoppage which actually occurred on the 1st of April. That the loss in gross revenues should have reached such large proportions despite that circumstance attests the extent and magnitude of the reverse under which the railroad industry is laboring at the present time.

If, however, the traffic and gross revenues of our railroad transportation lines have not been improving in the slightest degree—have, in fact, been going from bad to worse—the managers have at least been getting better control of their expense accounts. By reason of that fact the showing as to net is much better than it was for January or February. We have already stated that for the roads reporting both gross and net earnings and covering 152,058 miles of road, the loss in gross earnings had been \$21,531,681. This was offset by a saving in expenses of almost 15 million dollars (\$14,988,050), leaving a loss in net of only \$6,543,631. As a consequence the ratio of decrease in the net is found to be only 14.40%, or but little heavier than the ratio of decrease in the gross, which is 13.23%. In January, with \$20,025,624 loss in gross, the saving in expenses was only \$8,529,278, and in February, with \$17,713,009 decrease in gross, the reduction in expenses was only \$8,938,407. It thus happens that while the ratio of decrease in the gross has been rising, the percentage of loss in the net has been diminishing. In January the net fell off almost 30% (29.93%), in February the decrease was about 25% (25.10%), while now for March, as just stated, the falling off in net figures out only 14.40%.

		March. (103 roads.)		Janu	ary 1 to Ma: (122 roads.)	
	1908.	1907.	Inc. o. Dec.	1908.	1907.	Inc. or Dec.
Miles of road .	152,058	150,925	+1,133	159,027	157,837	+1,190
Gr.earns Op. exp.	141,193,819 101,865,296	162,725,500 116,853,346	$-21,531,681 \\ -14,988,050$	427,633,577 330,229,305	490,416,831 361,194,428	$ \begin{array}{r} -62,783,254 \\ -30,965,123 \end{array} $
Net earn	39,328,523	45,872,154	-6,543,631	97,404,272	129,222,403	-31,818,131

The \$6,543,631 loss in net for March is based, as already stated, on an aggregate of 152,058 miles of road. For the whole railroad mileage of the United States the amount would of course be increased, but we should judge that the missing roads, if we could have their figures, would not raise the aggregate of loss to above \$10,000,000. For February we estimated the loss in net for all the roads at about \$11,000,000 to \$12,000,000 and for January at about \$16,000,000 to \$17,000,000. In the following we furnish a summary of the gross and net earnings for March and for the three months ending with March for a series of years past, as registered in our tables, covering the roads actually furnishing returns of both gross and net earnings.

Year		Fross Earning	8.	Net Earnings.			
I cur	Year Given.	Year Preceding.	Inc. (+) or Dec. (-).	Year Given.	Year Preceding.	Inc. (+) or Dec. (-).

Note<sub>a</sub>—Includes for March 141 roads in 1896; 127 in 1897; 137 in 1898; 123 in 1899; 126 in 1900; 123 in 1901; 126 in 1902; 107 in 1903; 101 in 1904; 101 in 1905; 96 in 1906; 94 in 1907 and 103 in 1908. And from Jan. It of March 31, 178 roads in 1896; 171 in 1897; 168 in 1898; 157 in 1899; 154 in 1900; 149 in 1901; 145 in 1902; 143 in 1903; 127 in 1904; 118 in 1905; 110 in 1906; 112 in 1907 and 122 in 1908. Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are incuted in any of these totals.

The figures for the March quarter, it is well enough to say, are always more comprehensive than those for the month of March alone, the reason being that a

number of roads furnish returns each quarter but not each month. Our statement for 1908 for the period mentioned covers an aggregate of 159,027 miles of road, and on this mileage the loss in gross earnings reaches \$62,783,254 and the loss in net \$31,818,131. For the whole railroad system of the country the loss in gross must have reached \$80,000,000 and the loss in net in the neighborhood of \$37,000,000 to \$40,000,000. In considering the significance of this year's loss in net the fact should not be overlooked that there was a loss last year, too, in these three months, by reason of the great augmentation of expenses which occurred at that time. From the table first above it will be seen that for March the roads contributing returns to our compilation in 1907 showed \$12,980,393 gain in gross, but only \$63,814 gain in net, while for the three months ending with March a gain in gross earnings then of \$33,443,976 was attended by an actual loss of \$2,337,934 in net.

The economies in expenses the present year have been carried so far that certain roads, though having suffered a large decrease in gross earnings for March, are able to show an increase in the net. Generally, however, where this is the case, expenses last year were on an exceptional scale, as is notably true of the roads in the South. The Southern Railway, by reason of that fact, is able to report for March 1908 an increase of \$237,340 in the net, though its gross fell \$692,016 behind. The Atlantic Coast Line, though having suffered a reduction of \$174,730 in gross, has \$74,064 increase in net. The Southern Pacific, with \$808,595 decrease in gross, has \$125,883 increase in net. The New York Central, though having sustained a decrease of \$697,541 in gross, has added \$117,407 to its net; the same remark applies to the result for the New York Central System, comprising besides the Central itself the various auxiliary roads owned or controlled; in that case the loss in gross for the month amounts to \$1,941,048, while there is actually a gain of \$92,518 in the net. The Pennsylvania Railroad on the lines directly operated East and West of Pittsburgh for the month lost no less than \$3,530,000 in the gross, but in the net the loss by reason of lower expenses was cut down to \$639,800. Similarly the Atchison, with \$1,032,185 decrease in gross, has only \$287,585 decrease in net. In the following we show all changes for the separate roads for amounts in excess of \$30,000, in both gross and net.

a These figures cover merely the operations of the New York Central itself.

For the New York Central System the result is a gain of \$92,518.

These figures are for the Railroad Co.; the Coal & Iron Co. reports a decrease of \$109,000.

decrease of \$109,000.

y These figures cover lines directly operated east and west of Pittsburgh and Erie. The net on Eastern lines decreased \$544,500 and the net on Western lines decreased \$95,300.

It is needless to say that when the roads are arranged in groups there is a loss in gross in the case of every group, both for the month and the three months. The same remark applies to the net earnings, except that for the Eastern and Middle Group there is an increase in the net for the month by reason of the cutting down of the expenses. Our summary by groups is as follows:

SUMMARY BY GROUPS.

Mileage.—The mileage of the above group for March is as follows: Truth Lines, 29,801 miles, against 29,724 miles in 1907. Anthractic Coal, 4,713, against 4,713. Fastern & Middle, 3,701, against 3,694; Middle Western, 10,538, against 10,488; Northwest & North Pacific, 28,596, against 28,126; Southwest & South Pacific, 43,731, against 43,355; Southern, 30,978, against 30,827; grand total, 152,058, against 150,925; Mexican, 6,763, against 6,738.

The foregoing covers simply the roads which have furnished returns of both gross and net earnings. addition, as already stated, there is a body of roads which supply figures only of the gross, comprising some important companies like the Northern Pacific, the Great Northern, the Milwaukee & St. Paul, &c. Starting with the total of the gross in the above, we add on these other roads in the table we now present.

BOADS REPORTING GROSS BUT NOT NET

March.	1908.	1907.	Increase.	Decrease.
	8	3	3	8

Toronto Ham & Buffalo	72.794	86,260		373,194
Toronto Ham & Bunalo	12,794	80,200		13,466
Total (126 roads)	162,495,089	187,435,350	111.083	25,051,344
Net decrease (13.37%)				24 040 261
Miles of road	186,435	184,629	1,806	

In this way the amount of the loss in the gross is raised to \$24,940,261, the ratio of falling off being 13.37%. The mileage covered is 186,435. We have already indicated that if we could have returns for the roads still unrepresented, the aggregate of the loss in gross for the whole railroad system of the country would be not less than \$30,000,000.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 553 shares, of which 500 shares were sold at the Stock Exchange and 56 shares at auction. The transactions in trust company stocks reach a total of 163 shares. A large lot, 500 shares, of stock of the National Bank of Commerce was sold at the Stock Exchange at 166. A sale of 10 shares of Mutual Bank stock was made at auction at 2991/2, an advance of 48 points over the price paid in February, when the last previous sale occurred.

-The Senate and House conferrees at Washington who have been seeking to reconcile the conflicting views between the two branches of Congress on currency matters, as expressed in the Aldrich and Vreeland bills, held a number of meetings this week, but found themselves unable to reach an agreement. It was finally decided to abandon efforts at currency legislation for this session. It was agreed, however, to report to the respective houses that section of the Aldrich Bill providing for the creation of a national monetary commission, to be composed of nine Senators and nine Representatives, to be appointed by the Vice-President and Speaker. In accordance with this decision a joint resolution providing for the appointment of such a commission was reported by Senator Aldrich from the Committee on Finance and passed by the Senate on Thursday. Similar action was taken Friday by the House Banking and Currency Committee.

-An opinion as to the constitutionality of the tax on transfers of stock was submitted by the Supreme Judicial Court of Massachusetts to the House of Representatives on Thursday. The decision was given in answer to the following questions asked by the House:

1. Whether it is within the constitutional power of the Legislature to enact a law imposing a tax on all shares or certificates of stock in any domestic or foreign association, company or corporation, under that clause of the constitution which authorizes the Legislature to levy proportional and reasonable assessments;

2. Whether such a tax may be imposed under the legislative authority to impose reasonable duties and excises;

3. Whether such a tax may be imposed under any other provision of the constitution.

The Justices unanimously returned a negative answer to the first and third questions. On the second question there was a difference of opinion, a legal majority, however, answering it in the negative.

-A Clearing-House Association has been formed, and is now in operation, in Trenton, N. J. The question of establishing such an organization was considered by the banks last November, but no definite action was taken at that time. For the coming six months the main office of the association will be the Trenton Banking Co. The other banks in turn will carry on the business, each serving for a period of six months.

The organization of the First Security Co. of New York, which is to serve as an adjunct to the First National Bank of this city, was perfected at a meeting this week. One of the principal steps in connection with the formation of the new concern was the declaration on Tuesday of a special dividend of 100% on the capital of the bank, which is to apply as payment toward the \$10,000,000 capital of the proposed institution. As was announced in this department on Feb. 29, when the plans of the company's organization were fully set out, the company has been projected in part for the purpose of transacting "certain lines of profitable business, which though often transacted by bankers, are not expressly included within the corporate power of national banks"-including the acquiring and holding of real estate, securities, stocks and other properties owned by the bank. The arrangement is similar to that existing between the First National Bank of Chicago and the First Trust & Savings Bank, although in the case of these institutions, the business of the auxiliary organization is of a banking and trust nature. The management of the First Security Co. is to be identical with that of the bank; its stock is to be held by six trustees—the President, four Vice-Presidents and Cashier of the bank. Their formal election occurred on Tuesday, on which day the directors were also elected. The trustees are: George F. Baker, Henry C. Fahnestock, F. L. Hine, Henry P. Davison, George F. Baker Jr. and Charles D. Backus. directors, all of whom are members of the board of the bank, are: F. A. Baker, George F. Baker, James A. Blair, Henry P. Davidson, H. C. Fahnestock, James J. Hill, F. L. Hine, A. Curtis James, John J. Mitchell, William H. Moore, J. P. Morgan and George F. Baker Jr. The First National, according to its statement of Feb. 14 last, carried bonds, securities, &c., to the amount of \$60,696,651. On that date its surplus and profits, out of which provision is made for the \$10,000,000 capital of the new company, were over \$20,-000,000. Seven years ago, in 1901, when the bank increased its capital from \$500,000 to \$10,000,000, it declared a dividend of 1,900%, which was used as payment for the additional stock.

-The Legislative Committee of three appointed last fall to represent the New York State Bankers' Association in such legislation as would affect its interests submitted its report to the Association under date of the 4th inst. A digest of the various changes in the banking law made by the 1908 Legislature is appended as part of the report of the committee, which consists of F. E. Lyford, Ledyard Cogswell Jr. and Edmund D. Fisher, Chairman. is also incorporated the address of Charles Elliot Warren, President of the Association, delivered on February 17 before the Council of Administration, outlining the procedure followed by the legislative committee in relation to both State and National legislation. The remarks of Chairman Fisher, made before the House Committee on Banking and Currency on April 14, in opposition to the Aldrich Bill, are likewise embodied therein, together with a sketch which Mr. Fisher presented, comparing the essential features of the present law governing the issuance of bank notes, the Aldrich Bill, the Fowler Bill, the plan of the American Bankers' Association and a plan suggested by Mr. Fisher. presenting its report the committee offers the suggestion that an address on the subject of the guaranty of deposits, as provided in the Fowler Bill, would be an interesting feature at the annual convention in July.

-The deposits of the Hanover National Bank of this city have increased nearly ten million dollars since the last official call of February 14 1908. The statement just issued shows total deposits of \$94,788,700 89, as against \$85,877,896 26. Aggregate resources are reported at \$111,-135,431 19, as against \$103,463,409 06.

-Albert H. Gross, Exchange member of the firm of Gross & Kleeburg, of 25 Broad Street, which assigned on October 16 1907, was reinstated to membership in the New York Stock Exchange on Thursday.

-Group VIII of the New York State Bankers' Association comprising the bankers of New York City, held its annual meeting at the Clearing House on Wednesday. James G. Cannon, Vice-President of the Fourth National Bank of this city, is the newly elected President of the Group, and B. H. Fancher, Cashier of the Fifth Avenue Bank, has become Secretary. The following is the Executive Committee elected: William H. Porter, President of the Chemical National Bank; H. M. Kilborn, Vice-President of the National City Bank; H. P. Davidson, Vice-President of the First National Bank; E. H. Ferry, Vice-President of the Hanover National Bank; Gates W. McGarrah, President of the Mechanics' National Bank; Albert H. Wiggin, Vice-President of the Chase National Bank, and Z. S. Freeman, Cashier of the Merchants' National Bank.

-Samuel H. Miller, for many years Assistant Cashier of

Cashier to fill the vacancy caused by the resignation of E. J. Stalker. Mr Stalker retires to enjoy a period of needed recuperation, free from routine duties and responsibilities. Mr. Miller started with the Chase as a boy, 20 years ago, and has advanced step by step until he now holds the important position of Cashier. Henry M. Conkey and Alfred C. Andrews have been made Assistant Cashiers.

-Walter M. Bennett, Cashier of the Bank of America, of this city, has been e'ected a Vice-President of the institution; he will also continue in the cashiership. Albert G. Havens has become Assistant Cashier of the bank.

The National Copper Bank of this city, which has just completed the first year of its existence, reports deposits of \$17,049,077 under the call of the Comptroller of the Currency for May 14. The bank's cash resources now amount to \$12,700,281. It has a capital and surplus fund of \$2,-000,000 each and undivided profits of \$361,537. The growth which the bank has experienced in deposits in its first year, is said to be larger than that of any other national bank in the city for a like period.

-Some facts concerning the history of the Greenwich Savings Bank of this city, which has reached the seventyfifth anniversary of its existence, were presented at the regular meeting of the board of trustees on Thursday, the 14th inst. The bank was incorporated by an Act of the Legislature of the State of New York passed April 24 1833, organized May 29 1833 and began business July 1 1833. incorporation of the bank was by thirty-three men well known in the city, who served without compensation. quarters were at 10 Carmine Street. It was at first opened but two days a week for the receipt of deposits-on Mondays from 5 to 7 p. m. and on Fridays (for women only) from 4 to 6 p. m. During the first week 119 persons deposited \$18,000. Six months later the assets were \$71,800. In 1839 the bank was obliged to secure larger quarters, and the premises at 11 Sixth Avenue were purchased, which cost, after being fully renovated, \$6,940. In 1842 the deposits had reached \$180,-000 and on June 8 of that year it was found necessary to open the bank for business on Monday, Wednesday and Friday. In 1846 the bank bought the property at the northwest corner of Sixth Avenue and 4th Street; the deposits then amounted to nearly \$400,000. During the following four years the deposits rose to \$1,015,000. In 1853 the bank secured quarters at the southwest corner of Waverly Place and Sixth Avenue, which it occupied the following year. It was then decided that the hours of business should be each business day from 10 to 2, and also on Mondays, Wednesdays and Fridays from 5 to 7. In 1874 the evening hours were abolished, and an hour each business day was added to the earlier session, the bank having since been opened daily from 10 to 3. The deposits in 1874 reached about \$10,000,000. In February 1892 the bank removed to its present building, at the southeast corner of Sixth Avenue and Sixteenth Street. The deposits were then \$22,567,-000 and the surplus on the par value of securities \$2,518,000. At the present time it reports assets belonging to 91,300 depositors of \$61,750,000, of which \$4,000,000 is surplus over deposits

-Thomas A. McIntyre, of the failed firm of T. A. McIntyre & Co. of this city, was indicted by the Grand Jury on Wednesday on a charge of grand larceny. Mr. McIntyre, who for the past two weeks has been in a sanitarium, appeared before Judge Rosalsky in General Sessions, where he was released on \$25,000 bail. The indictment grew out of the complaint of a customer, who alleged that the firm had failed to transfer, as directed, 10 shares of United States Steel stock, but had instead placed the stock with the Metropolitan Trust Company as security for a loan.

Mr. McIntyre was again arrested on Thursday in a civil suit involving \$30,000 of securities. He was released on bail to the amount of \$5,000, as was his brother, John G McIntyre, who was also made a defendant in the case. Arthur H. Peck, one of the receivers of the firm, issued a statement on Thursday showing its assets (including exchange memberships valued at \$90,000) as \$316,750 and its liabilities as \$1,575,000.

Judge Hough in the U.S. District Court on Monday granted the application of the receivers of the firm directing the Chase National Bank of this city, has been appointed the banks and trust companies from which the firm had obtained loans to surrender immediately the surplus cash and securities remaining after the liquidation of these loans.

At meetings held on Monday last, the stockholders of the Northern Bank, the Riverside Bank and the Hamilton Bank unanimously ratified the merger argeement referred to in these columns May 9. The three banks will unite under the name of the Northern Bank of New York, and the consolidated institution will have a capital of \$1,000,000; the names of its officers have not as yet been announced.

-An order was signed on the 16th inst. by Judge Lacombe, in the U.S. Circuit Court, discontinuing the suit brought by Receiver Hanna of the National Bank of North America against Charles W. Mcrse, to recover \$405,673 alleged to have been obtained by him through dummy-loan transactions. Mr. Morse and his friends recently turned over to the bank about \$250,000 in cash and securities in settlement

A new company, through which, it is understood, r. Morse's debts other than those of the National Mr. Bank of North America are to be adjusted, has been incorporated in Malae with a capital of \$10,000,000. The concern has been organized under the name of the Morse Securities Company. Its purpose, according to the incorporation certificate, "is to acquire and hold as investments any shares of capital stock, bonds, securities or other evidence of indebtedness created by any other corporations of the State of Maine or any other State."

-In accordance with the reorganization plans, the directors of the Williamsburgh Trust Company of Brooklyn Borough yesterday elected Brayton Ives as President. Mr. Ives is head of the Metropolitan Trust Co. of this city, which is to advance the Williamsburgh Trust Co. the sum of \$1,500,000 cash to aid in its re-opening. Arguments on the question of the removal of the receivers of the latter institution were heard this week; considerable differences were shown to exist, however, between the directors and the receivers over matters pertaining to the reorganization, one of which involved the fees of the receivers, and the court directed both sides to agree upon an order for resumption within a week. It is understood that under the reorganization arrangements the affairs of the company are to be administered by a board of trustees until the repayment of the loan to the Metropolitan Trust Co. These trustees will be Brayton Ives, J. Edward Simmons, Vice-President of the Fourth National Bank; and William N. Dyckman, Attorney for the depositors.

-Announcement was made last week of contemplated action to reorganize the Brooklyn Bank of Brooklyn Borough. The movement was started by S. Stanwood Menken of the law firm of Philbin, Beekman & Menken. As the bank has been closed since Oct. 25, and a dividend of 40% in liquidation was expected to have been paid shortly, reorganization proceedings were rather unlooked for. The bank has a capital of \$300,000 (in \$50 shares), of which \$168,000 is held by the International Trust Co. While the latter is underby the International Trust Co. stood to have approved the plan, its consummation depends upon the unanimous consent of the minority holders and also on the question as to whether the bank is a separate institution or a part of the International Trust Co. A decision on this question is expected to be given by Justice Betts to-day. Mr. Menken's plan provides for the sale at par of the minority stockholdings to the International Trust Co., the latter to be given two years in which to complete the payment of the same, the stock in the meantime being deposited with a trust company as security for its payment. A loan of \$250,000 from a trust company has been arranged for, under an agreement that during the time such loan is outstanding the affairs of the bank shall be conducted by an advisory committee on which representatives of such trust company will have a membership. In a circular sent out by Mr. Menken to the minority stockholders, the following statement as to the cash resources of the Brooklyn Bank and the International Trust Co. is shown:

Cash in the hands of the receivers of the Brooklyn Bank. Cash in the hands of the receivers of the International Trust Co-Brooklyn Bank quick assets (easily calizable upon, in the form of loans that can be called, secured by Stock Exchange collateral and bonds and stocks salable on the Stock Exchange.

400,000 250,000 

Bryan, who retired at a directors' meeting this week. De Lima is a member of the firm of D. A. De Lima & Co. and a cousin of E. A. De Lima, head of the Battery Park National Bank. -At the annual meeting of the Waterbury Trust Co.

-E. S. A. De Lima has been elected President of the

Hungarian-American Bank of this city, to succeed W. H.

of Waterbury, Conn., on the 11th inst., three new members, namely, Cornelius Tracy, T. H. Hewitt and E. J. Daly, were added to the board. The re-elected members are C. L. were added to the board. The re-elected members are C. L. Holmes, M. L. Sperry, W. T. Woodruff, H. S. Rowland, H. H. Heminway and H. S. Seeley. The officers were re-elected as follows: C. L. Holmes, President; M. L. Sperry, Vice-President; H. S. Seeley, Secretary and Treasurer.

-The criminal charges against Adolph Segal, William F. North and Marshall S. Collingwood, arising from the suspension in 1906 of the Real Estate Trust Co. of Philadelphia, were dismissed on the 18th inst. by Judge Carr, in Quarter Sessions Court, at the request of the directors of the institution, and with the consent of the District Attorney. George H. Earle, Jr. formerly receiver, and now President of the reorganized company, who had been authorized to submit the petition for the discharge of the men, stated that the institution had received full satisfaction for all damages or losses suffered.

-The Allegheny National Bank of Pittsburgh, which saffered through the defalcation of its Cashier, failed to open its doors on Monday, following a decision reached the previous day, to wind up its affairs. While there had been announcements a week ago that arrangements had been made for the raising of a guaranty fund of \$500,000 and a reorganization was to occur immediately, the affairs of the bank appear to have been in so confused a state that it was finally decided to discontinue these proceedings. Another contributing factor was the notice issued by the Clearing House on the 16th inst. to the effect that no clearings would be made by the Association for the bank on Monday, and that each bank would be obliged to collect its own claims against the institution. The statement given out by the bank on Sunday night with regard to the closing up of its affairs is as follows:

A committee of representatives of some of the largest banks in the city prepaced to lend all assistance required, spent almost all day to-day in making a thorough examination of the bank's affairs, but finding them in such a state of inextricable confusion, came to the conclusion that the wise thing to do in the interest of both depositors and stockholders under the circumstances is to let the affairs of the bank be closed up by the United States authorities. States authorities.

The bank's deposits are small, not to exceed \$300,000, outside of the city and State accounts, both of which have bondsmen for their security.

The city's deposit amounts to about \$1,500,000 and that of the State to \$532,222. The funds of the city are secured by two bonds of \$500,000 each; the State funds are protected by bonding companies and by the bonds of some of the directors of the bank. City Treasurer Steel entered judgment on the city's bonds on the 18th inst. One is entered against Joshua Rhodes, John Caldwell Jr., Walter Chess, Robert McAfee and Cashier William Montgomery, and the other is directed against William Stewart, Walter Chess, William Montgomery, Thomas Evans, William H. Latshaw and Robert McAfee, Mr. McAfee, who is a director of the bank, is Secretary of the Commonwealth of Pennsylvania. Mr. Montgomery, ex-Cashier of the bank, who had been held under \$100,000 bonds on the specific charge of embezzling \$469,000 of the bank's funds, was arraigned on the 16th inst. on a new charge of appropriating to his own use \$125,000 of securities held by the bank. When additional bail to the extent of \$25,000 was asked for under the new charge, the \$100,000 bonds which had been furnished by George E. Tener and Richard R. Quay were withdrawn, and the accused was taken to the Allegheny County Jail. The Allegheny National was organized in 1857 and became a national institution in 1865. In its last statement to the Comptroller of the Carrency (February 14) it reported a paid-in capital of \$500,000; a surplus fund of \$700,000; undivided profits of \$129,461; deposits of \$2,444,863, and total resurces of \$4,243,124. Lyons has been appointed temporary receiver. According to the Pittsburgh "Dispatch" of the 17th the gross amount of the shortage will be in the neighborhood of \$2,000,000, against which, however, there is \$750,000 worth of property and recoverable securities, reducing the net loss to \$1,-250,000.

-The well-known Pittsburgh Stock Exchange House of James Carothers & Co., was placed in receiver's hands this week, as a result, it is stated, of the closing of the Allegheny National Bank. An involuntary petition in bankruptcy was filed against the firm on Monday, in response to which Charles F. Patterson, its counsel, was named as receiver. Mr. Patterson caused the following statement to be issued concerning the failure:

The failure of James Carothers & Co, was caused entirely by the failure of the Aliegheny National Bank. The firm held a large amount of the bank's stock as collateral and when the bank closed, the stock was no longer available in the firm's loans, and as it was found impossible to procure collateral to substitute for the Aliegheny National Bank stock, it was deemed best for the interests of all the firm's creditors to consent to the appointment of a receiver. Only a comparatively small number of the creditors hold the bank stock as security and the other loans of the firm are well secured. The court has made an order restraining the auditor of the firm, who holds collateral, from disposing of the same without the court's permission, and as soon as the receiver can obtain a working knowledge of the firm's condition, steps will be taken to liquidate the firm's liabilities so that as much as possible can be obtained for the unsecured creditors.

The firm was a most prominent one in Pittsburgh and is composed of James Carothers and Wm. E. von Bonnhorst. Mr. Carothers had at one time been President of the Pittsburgh Stock Exchange and had been prominently connected with the Pittsburgh Life & Trust Co. Mr. von Bonnhorst, prior to entering the firm, had been with the old Merchants' & Manufacturers' National Bank, and had served as Cashier of the Marine National.

-An amalgamation which will unite two important banking institutions of Cincinnati, namely, the Fifth National and the Third National, has been arranged, and it is expected will be carried to completion by June 1. The proposition to merge was ratified by the directors of the respective banks at meetings held on the 16th inst., and now awaits only the approval of the shareholders. The bank growing out of the union is to be known as the Fifth-Third National Bank, and it will have a capital of \$2,500,000 and surplus of \$1,000,000. The Third National, which is to be placed in liquidation, has a capital of \$1,200,000 and surplus and profits of about \$644,000. The Fifth National has a capital of \$1,000,000 and surplus of \$770,637; it is the intention of the Fifth National to increase its capital to \$1,300,000, declaring for the purpose a stock dividend of 30%. Under this arrangement the stockholders of the Fifth National will receive \$1,300,000 of the stock of the new bank and those of the Third National \$1,200,000. Of the \$1,000,000 surplus of the proposed institution, \$600,000 will be contributed by the Third National and \$400,000 by the Fifth National. The stock of the new bank is to be placed on a dividend basis of 10% per annum. The rate paid by the Fifth National is 10%, with 2% additional, while the Third National pays 9% yearly. Charles A. Hinsch, President of the Fifth National Bank, will be at the head of the new Fifth-Third National. Edward Seiter, Cashier of the Fifth National, and W. A. Lemmon, Vice-President of the Third, will be the Vice-Presidents of the enlarged bank, while Monte J. Goble, Assistant Cashier of the Fifth, will be the new bank's Cashier. The Assistant Cashiers of the latter will be C. T. Perin (Cashier of the Third National), Charles H. Shields (Assistant Cashier of the Fifth), Fred. J. Mayer and Louis E. Van Ausdol, now Assistant Cashiers of the Third. Charles H. Kellogg, President of the Third National, and Stewart Shillito, Chairman of the Board of that bank, will be identified with the continuing bank as directors, as will also James M. Glenn, who retires as Vice-President of the Fifth National. The enlarged bank will have deposits of about \$13,000,000, of which about \$5,000,000 represents those of the Third National.

-The immediate cause of the suspension last week of the Reserve Trust Co. of Cleveland is reported to have been heavy withdrawals and the refusal of the Union National Bank to clear for it on the old basis. The bank, it is said, served notice on the company on the 13th stating that unless it received \$200,000 cash as surety within twenty-four hours, it would no longer clear for it. A fruitless effort to organize a syndicate to put up the required money resulted in the turning over of the trust company to an assignee, which, as stated last Saturday, occurred on the 14th inst. The company was a city depositary, having funds of the city amounting to \$240,991 In its last statement to the State Auditor on Dec. 5, the company's deposits were reported as \$2,239,214, and the total liabilities as \$2,631,279. It has a capital of \$300,000.

-The American Savings Bank Co. of Cleveland, which, as stated last week, closed its doors on the 14th inst., filed a deed of assignment on the 15th inst. E. M. Buel, Secretary and Treasurer of the institution, is the assignee. The liabilities and assets are placed at \$307,000. The bank found itself unable to withstand a run which had followed the notification by its clearing-house representative that it would no longer clear for it. It is stated that an offer of a larger institution to take over the bank and guarantee its deposits was made, but the terms were such that the directors were unable to raise the money necessary to accept the offer. bank has a capital of \$50,000.

-The sixteen national banks of Chicago, in their published statements of May 14, show a gain of \$9,000,000 in deposits over their status on Februray 14, when the last Government call was made. This means a record for several banks. The Continental National shows an increase of 51/2 millions, \$70,256,616 56 being high-water mark for this institution. The Bankers' National has increased its deposits since February \$1,700,000; the National City Bank \$1,300,000; the Fort Dearborn National \$1,100,000; the Corn Exchange \$700,000; the National Bank of the Republic and Prairie National \$500,000 each and the Hamilton \$400,000.

-The May 12th published statements of the Chicago State banks show an increase of deposits over the statements of February 15th of over \$40,000,000, or 12.8 per cent, although both deposits and total resources fall below the figures of August 20 1907. The financial outlook in Chicago and throughout the West is highly encouraging. The banks showing the greatest gain in deposits since the last previous statement are as follows:

Hartis Trust & Savings Bank
American Trust & Savings Bank
First Trust & Savings Bank
Union Trust Company.
State Bank of Chicago.
Central Trust Company.
Merchants' Loan & Trust Company
Hilingis Trust & Savings Bank 14,022,054 2,878,075 2,862,390 1,832,186 1,568,320 1,557,337 1,173,347 1,021,929

The exceptional increase recorded by the Harris Trust & Savings Bank is accounted for by the item of "special deposits", amounting to nearly \$3,000,000.

-The Mississippi Bankers' Association, at its annual convention held at Brookhaven on the 13th and 14th inst., unanimously passed a resolution providing for the appointment of a committee which is to co-operate with a similar committee from the Farmers' Union of Mississippi in suggesting plans for detailed co-operation by the bankers with the farmers in the marketing of the crops of the State; the committee is further instructed to take up the matter of a uniform negotiable cotton-warehouse receipt. resolution follows:

Whereas, It is wise and profitable that the bankers and farmers shall co-erate in the handling and marketing of cotton and other farm products;

operate in the handling and marketing of cutton and usual management, and, whereas, it is desirable that a practical plan be devised for the expression of the desire to bring about a wise and profitable co-operation in handling cutton; therefore, be it Resolved, That the president of this convention appoint a special committee, the duties of which shall be:

A—To draw and suggest a uniform negotiable cotton-warehouse receipt, upon which loans may be made with maximum of safety and the milinum of red tape, expense and trouble.

13—To co-operate with a similar committee appointed by the Farmers' and the same of t

rules and regulations for the government of cotton warehouses throughout the State.

C—To co-operate with a similar committee from the Farmers' Union in suggesting further plans for detailed co-operation by the bankers with the farmers in marketing the crops of the State.

Resolved further, That the said committee be requested to make a preliminary report on or before Aug. 1 1908 by circular issued at the expense of the association and a final report at the next meeting of this association.

In an address delivered by Sol. Wexler, of the Whitney Central National Bank of New Orleans, the bankers were urged to take an active part in the coming primaries, and to see to it that an uninstructed delegation is sent from Mississippi to Denver, to the end that some one other than W. J. Bryan shall be nominated for the Presidency. At the close of the convention the bankers started on a tour of various cities, including Cincinnati, Washington, New York, Buffalo, Niagara Falls, Detroit and Chicago.

-The Missouri Bankers' Association held a two-days' session at Joplin this week, the occasion being its eighteenth annual meeting. Among those contributing to the program were Francis B. James, of the Cincinnati Bar, and President of the Ohio State Board of Uniform State Laws, who delivered an address presenting the "Legal and Commercial Aspect of Bills of Lading," and Secretary of State John E. Swanger, who spoke on "General Banking Interests."

## Commercial and Miscellaneous News

GOVERNMENT REVENUE AND EXPENDITURES.-GOVERNMENT REVENUE AND EXPENDITURES.— Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of April. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the ten months of the fiscal years 1907-08 and 1906-07. For statement of April 1907 see issue of May 25 1907, page 1219.

RECEIPTS AND DISBURSEMENTS (000s omitted).

+Increase over last week — Decrease from last week.

a Includes bank notes. 5 After eliminating the Item "Due from reserve deptories and other banks and trust companies in New York City." deposits amount \$711.324,700, an increase of \$12,808,600 over last week's figures.

Nois.—In the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures: in all other cases "gross" deposits are shown. The Clearing-House actual figures included United States deposits amounting to \$31,652,200; a decrease of \$5,587,500 from last week; averages included United States deposits of \$31,698,400, a decrease of \$7,467,600 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, net only eash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust campanies in the rest of the State the repair of the property of the part of the state the repair of the part of the state the rest of the State the rest of the State the result of the part of the state the rest of the State the result of the part of the

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

Wall Street, Friday Night, May 22 1908.

Wall Street, Friday Night, May 22 1908.

The Money Market and Financial Situation.—Although the volume of business in the shares department at the Stock Exchange has been larger this week than at any time in more than a year, or since the latter part of March and early April 1907, values much of the week have yielded easily to the slighest evidence of increasing offerings, and the transactions in bonds have steadily diminished. From these facts the natural inference is that the larger business referred to is not due to an investment demand. It is interesting to note, however, that there is somewhat more inquiry for pig iron, and that prices for that metal will be maintained for the present as decided by leading representatives of the iron and steel industry at a meeting yesterday. The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 1% to 1¾%. To-day's rates on call were 1½@1¾%. Commercial paper quoted at 3¾@4% for choice 60 to 90-day endorsements and for 4 months best single names; 4@4½% for a slightly lower grade of 4 to 6 months' single names; 4. The Bank of Engiand weekly statement on Thursday showed an increase in bullion of £542,010, and the per cent of reserve to liabilities was 51.77, against 51.12 last week.

The rate of discount remains unchanged at 3%, as fixed March 10. The Bank of Fernes above an increase of 35.

The rate of discount remains unchanged at 3%, as fixed March 19. The Bank of France shows an increase of 35,-100,000 francs gold and 3,750,000 francs silver.

Note.—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the state islanding peartment showing the condition of state ours and trust companies not reporting to the Clearing rouse, appear on the preceding page.

Foreign Exchange.—The market was generally strong this week in response to a good demand for remittance. No sterling bills were offered against gold exports, such exports being effected chiefly through the medium of francs and marks. Gold shipments during the week, \$13,455,000 to Pavis and Barlin

and marks. Gold shipments during the week, \$13,455,000 to Paris and Berlin.

To-day's (Friday's) nominal rates for sterling exchange were 4 86 for sixty day and 4 88½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8525@4 8535 for long, 4 8710@4 8720 for short and 4 8735@4 8740 for cables. Commercial on banks 4 8490@4 85 and documents for payment 4 84¼@4 84½. Cotton for payment 4 84¼@4 84½. To-day's (Friday's) actual rates for Paris bankers' francs were 5 12½@5 16⅓a for long and 5 15⅓a@5 15⅙ for short. Germany bankers' marks were 94⅙@94 15-16 for long and 95 7-16d @95 7-16 for short. Amsterdam bankers' guilders were 40 23@40 25 for short.

Exchange at Paris on London 25f. 12c., week's range 25f. 12c. high and 25f. 12c. low.

The following were the rates for domestic exchange on The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 50c. per \$1,000 discount; selling 75c. per \$1,000 premium; Charleston selling \$1 per \$1,000 premium; New Orleans bank 50c. per \$1,000 discount; selling 75c. per \$1,000 discount; Chicago 25c. per \$1,000 premium; St. Louis 65c. per \$1,000 premium; San Francisco 75c. per \$1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board include \$10,000 Tennessee settlement 3s at 96, \$10,000 ditto, small bonds, at 95, and \$45,000 Virginia 6s deferred trust receipts at 39 to 41.

Transactions in the market for railway and industrial bonds steadily diminished, as noted above, from nearly 6½ millions, par value, on Monday, to about half that amount on Thursday. To-day's market was slightly more active and prices, as on preceding days, irregular.

The upward tendency of Union Pacific shares caused an active demand for the convertible bonds, in which the transactions were on a large scale, at advancing prices, and they close with a net gain of over a point.

United States Bonds.—No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; for yearly range see third page following.

page following.

\*This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.—The transactions in stocks have been on a larger scale than for a long time past. They aggregated over 1,400,000 shares on Wednesday and averaged about 1,250,000 per day throughout the week. The market has been decidedly irregular, pracday and averaged about 1,250,000 per day throughout the week. The market has been decidedly irregular, practically all the active issues having covered a range of from 4 to 7 points. The advance which had been in progress for two or three weeks, continued with sight interruptions until Tuesday, when the highest quotations of the year were generally reached.

Among the exceptional features is Missouri Pacific, which advanced over 13 points, and has held nearly all the gain. North West covered a range of 7½ points and closes with a net loss of 1½. Union Pacific has been notably strong, selling up to 151½, an advance of 6½ points, a large part of which it retains. St. Paul shows a net gain of 2½ points, N. Y. New Haven & Hartford 2½ and Illinois Central 2½. On the other hand, Reading declined 6 points, only a small part of which it has recovered, and Baltimore & Ohio made a similar record.

small part of which it has recovered, and Baltimore & Onio made a similar record.

Smelting & Refining has been weak, declining over 9 points and recovering slowly. Consolidated Gas advanced sharply on hopes of a favorable ruling by the U. S. Court in the 80-cent case now pending. The U. S. Steel issues have been active with fractional net change in prices.

For daily volume of business see page 1276.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—Trading in "curb securities at the opening of the week was in reduced volume, though the market maintained a strong tone, substantial advances being recorded in quite a few instances. In the later dealings a considerable selling movement developed, which caused a general recession in prices. Boston Consolidated Copper rose from 12 to 14½, dropped to 12½ and closed to-day at 12¾. Butte Coalition sank from 25 to 22½, the final transaction to-day being at 23. Greene Cananea was prominent, advancing a point to 10½, fell back to 9¾ and ends the week at 9¾. Nevada Consolidated Copper from 13½ advanced to 13½, moved down to 11¾ and closed to-day at 12. Cumberland Ely went up from 8½ to 8½ and down finally to 8. Nevada Utah fell from 4½ to 35-16, recovering finally to 3½. United Copper common moved up from 7¾ to 8½ and down to 7¼, but sold up finally to 7½. Goldfield Consolidated advanced from 5½ to 6, but weakened to 57-16. Goldfield Daisy was conspicuous for a loss from \$1 23 to 97 cents, and a recovery to \$1 08. Nipissing weakened from 7 to 6½, rose to 7¼ and ends the week at 7. In the specialties notable strength was displayed at first by Standard Oil, which moved up from 612 to 620, though later it reacted to 603, with a final recovery to 604½. Chicago Subway, influenced by reports of financing arrangements, advanced from 19½ to 23, and closed to-day at 22½. In the bond department the new Tidewater 6% notes were traded in for the first time at from 98½ to 99. Adams Express 4s moved up from 86½ to 67¼.

Outside quotations will be found on page 1276. Outside Market .- Trading in "curb securities at the open-

## Investment and Bailroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Earn	ings.	July 1 to I	alest Date.		Latest	Gross Earn	ings.	July 1 to 1	atest Date

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month. Besides the companies furnishing monthly returns, we have added this time the roads which make quarterly returns.

#### ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of April 25. The next will appear in that of May 30.

### Pennsylvania Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President James McCrea, under date of Pittsburgh, March 25, says in substance:

March 25, says in substance:

General Results.—The Income account again shows large increases in both gross and net earnings. After deducting the rental of the roads operated on the basis of net earnings, there remained net operating earnings of \$10,960,417, an increase of \$37,1540 over the previous year. The income from investments and from rents was \$11,854,903, an increase of \$2,607,822, making the gross income \$22,815,320, an increase of \$3,697,822 over 1906; after deducting all fixed charges, interest and other liabilities, there was a net income of \$9,896,487, an increase of \$36,599. Out of this net income there were paid contributions to sinking funds aggregating \$342,966, \$1,334,009 gold loan certificates of 1901 drawn for redemption Nov. 1 1907, \$267,990 on account of principal of car trusts and a dividend of 7% upon the capital stock, leaving a balance of \$3,751,531, from which there was transferred to the extraordinary expenditure fund \$2,500,000 to provide for expenditures not properly chargeable to capital account, and the balance of \$1,251,531 was transferred to the credit of the profit and loss.

#### TRAFFIC STATISTICS IN 1907 AND INCREASES OVER 1906

Preight Tonnage—Lines operated— Directly by Pennsylvania Companytons " "Pitts, Cinc. Ch. & St. Ltons	1907. 89,280,143 42,952,761	7,532.926— 9.23% 3,461,003— 9,10%
Under their own organizationstons.	23,667,522	2,368,027—11.31%
Aggregate for entire systemtons. Aggregate ton mileage Passengers Carried—On lines operated—	155,900,426 12,948,354,539	13,361,956— 9.50% 1,385,371,471—12.01%
Directly by Pennsylvanial Company No Pitts, Cinc. Ch. & St. L. No	13,121,982 11,567,794	1.073.156— 8.91% 770.740— 7.14%
Under their own organizationsNo.	8,311,617	716,987- 9.83%
Aggregate for entire systemNo Aggregate passenger mileage	1,019,326,971	2,560,883— 8.51% 110,179,410—12.12%

The average rate received per ton per mile on all lines of the system was 6.3 mills, a decrease of 1-10 mill; there was an increase in the cost of movement 1-10 of a mill, so that the net earningst per ton were 1.6 mills, as compared with 1.8 mills in 1906, a decrease of 2-10 of a mill.

The average rate received per pass. per mile on all lines of the system was 1.91 cents, a decrease of 1.2 mills, while the cost was 1.90 cents, a decrease of 2.2 mills, so that the net loss per passenger per mile decreased 1 mill.

The increase in expenses was directly due to the large increase in the volume of tonnage and number of passengers earried, to the increased rates of pay prevailing in all departments throughout the year and to higher cost of materials.

of materials.

Improvements, &c.—The work on the elevation of tracks on the Pittsburgh Fort Wayne & Chicago Ry. in Chicago was continued throughout the year, and involved the rebuilding of the engine house and shops at 55th St. A block of property on the east side of Canal St., Chicago, and extending from Madison St. to Washington St., was purchased to replace

the strip of property between Maidson and Van Buren streets taken by the saminary District of Chicago in order to widen the river.

Apart from the linishing of work in progress, very little was done on the track elevation of the Cleveland & Pittsburgh RR. In Cleveland, but a large amount was expended near Bedford, Onio, in the establishment of an interchange yard for handling the Lake coal and ores. Very large expenditures werealso madeon the Pittsburgh RR. In Cleveland, but a large amount was expended near Bedford, Onio, in the establishment of an interchange yard for handling the Lake coal and ores. Very large expenditures werealso madeon the Pittsburgh Youngstown & Ashtabula Ry, for increased docks and one and coal-handling appliances at Ashtabula Harbor, to take care of the increased business at that port.

The expenditures on the Southwest System were largely for the extension of second track between Ashtabula Harbor, on the American side, and Port Burwell on the Canadian side of Lake Erie, as mentioned in the report for 1906 to operate between Ashtabula Harbor, on the American side, and Port Burwell on the Canadian side of Lake Erie, as mentioned in the report for 1906, was in operation from April 1 1907 to the end of January 1906, with very satisfactory results, over 6,000 cars, containing over 250,000 tons of coal, naving been thus transported into the Dominion of Canada. Rolling Stock—Financial Depression.—The Dominion of Canada. Rolling Stock—Financial Depression.—The Dominion of Canada. Rolling Stock—Financial Depression.—The bocomotives on both systems were increased in numbers and capacity, while the freight car equipment on the Northwest System was increased 550 cars.

It should be noted. however, that, owing to the changed conditions brought about by the financial panic, which occurred in November last, there has been a very large fal ing off since that date in the traffic and heavy percentage of your equipment and a material reduction in your operating forces.

Purchase.—The entire capital stock

United States Rubber Co.

(Report for Fiscal Year ending March 31 1908.)

President Samuel P. Colt, May 19 1908, writes in substance: United States Rubber Co.—It is a source of satisfaction that, in spite of the great business depression throughout the country, the business of the company compares favorably as it does with that of the previous year—

the largest in its alstory, especially as due consideration is to be given to the fact that our nseal year ends March 31, tous including six months largely anected by the financial depression. For the first as, montus—April to September 1907—the business was largely in excess of the corresponding period for the previous year.

Funding Notes.—The funding notes which matured March 15 1908 were provided for by the sale of a new issue of like notes for the same amount, payable Sept. 15 1909. (C mp.re V. 86, p. 606.)

Boston Rubber Shoe Co. Debenhures.—Arrangements have been made for payment of the Issue of \$4,800,000 debenture bonds of the Boston Rubber Shoe Co., which matures Aug. 1 1908, through the sale of a new issue of \$4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance of \$4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance of \$4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance of the same sept. The profits are company or the payable services of \$4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance of the same services of \$4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance of \$4,500,000 of similar debentures.—Arrangements have been made for payment of the payable services of the services of services of Net sales and misc. ...\$41.860.426 \$39,715,731 \$32.868,594 \$32.931,211 Cost of goods sold ...... \$35,462,394 \$33,125,922 26,482,329 26,110,332 | Manufacturing profits | \$6,388,032 | \$6,589,803 | \$6,386,265 | \$6,820,879 |

In a handsomely illustrated work of 65 pages, 12x9 inches, President O. C. Barber describes the status of the

(Official Statement—"27 Years, 1881 to 1908," dc.)

In a handsomely illustrated work of 65 pages, 12x9 inches, President O. C. Barber describes the status of the enterprise and its prospective need for new capital: possible, and at one factory 60% more matches were produced in the year love finance of the enterprise and its properties more matches were produced in the year love finance of one-status of the produced in the year love finance of the status of the produced in the year love finance of the status of the produced in the year love finance of the status of the produced in the year love finance of large tracts of land in California, and as recently as a year ago a lot of about 85,000 acres, a part of which and years of years ago purbases were made of large tracts of land in California, and some years ago purbases were made in conjunction with hiryant & May, 1.4d, and represent at the present time holdings of upward of 180,00 acres of land, on which it is conservatively estimated there are loved in California, some 35 to 45 miles to the west and northwest of Chico. At a point 22 miles from Chico the town of Stirling was located and an exercity of the year loved in the year loved

At the annual meeting held in Chicago on May 6 the share-

At the annual meeting held in Chicago on May 6 the share-holders unanimously approved the proposition to purchase the interest of Bryant & May (V. 79, p. 2590) in the California timber property (see below). President Barber on this occasion, commenting on the results for the year (which were given in V. 86, p. 719), etc., said in part:

The operations of the company for the year 1907 were very satisfactory, the largest profits in our history having been realized, nowthistanding that in the last two months of the year trade fell off sharply, due to the disturbed financial conditions then prevaling. The depression in our business, however, was of short duration; in January and February our shipments showed a large gain over the corresponding months of 1907, and every indication at this time (Ma., 6-13)18) points to the volume for the year 1918 being equal to if not in excess of last year. So rapidly has our trade grown during the past few years and so active is it at the present time that the maximum productive capacity of our plants is taxed to the utmost to enable us to fill our orders. At a recent meeting of the directors it was decided to immediately build a large addition to the Barberton works, which it is hoped will be completed by the end of the purchase from the Sierra Lumber Co. of about \$450,000.—Ed.)

At your meeting in May 1907 you were informed of the purchase from the Sierra Lumber Co. of about \$9,000 acrees of timber land in California for \$1,000,000, and in addition thereto lumber, merchandise and supplies at inventoried value. Included in the property thus acquired were eight retail yards stuated in different towns in the Sacramento River Valley, which, with socks of lumber, merchandise and supplies on barrework of the control of

This will amount to about \$2,250,000 as of Dec. \$1 1907; of this sum \$500,000 to be evidenced by our notes, payable four years hence, and to provide for the payment of which the preferred non-voting stock of Bryant & May, Ltd., owned by us, worth about \$500,000 and yielding about \$54% per annum at present market prices, to be set aside and sold, and the proceeds applied of the process of the receiver of the process of the

#### GENERAL INVESTMENT NEWS

#### RAILROADS, INCLUDING STREET ROADS.

Alaska Central Ry.—Receivership.—A cable dispatch from Fairbanks, Alaska, states that on May 21 Judge Reid, upon petition of John E. Ballaine, representing Seattle and Eastern interests to the amount of \$3,000,000 of bonds, appointed John F. Goodwin receiver of the Alaska Central Ry. Co. and the Tanana Railway Construction Co. A. C. Frost of Chicago and H. O. Osborne of Toronto were leading spirits in the enterprise.—V. 84, p. 1112.

in the enterprise.—V. 84, p. 1112.

Atlanta & Carolina (Electric) Ry.—The company incorporated on Aug. 17 1906 with \$5,300,000 authorized (common) stock, in \$100 shares, has filed a mortgage to the Chicago Title & Trust Co. of Chicago, as trustee, to secure an issue of \$6,000,000 of 5% 30-year gold bonds, dated March 24 1908. The Atlantic & Carolina Construction Co. was incorporated in May 1905 with \$1,000,000 stock to build the proposed road, between Atlanta and Augusta. Ga., about 200 miles. The contract for construction in Atlanta was awarded in Oct. last and active construction, it is said, will begin in June next.

The bonds are due July 1 1938 but are subject to call at par, beginning

Will Deg.n in June next.

The bonds are due July 1 1938 but are subject to call at par, beginning with 1912, \$140,000 annually, or 2 1-3% of all bonds issued. Interest payable January and July at Atlanta, Ga. The trust deed provides that bonds may be issued at \$28,000 per mile, with additional amounts for double-tracking, extensions, &c. The mortgage covers all property now owned or hereafter acquired. The company has the right to use either steam or electric power, but cleericity has been adopted. Officers: President, J. W. English; Vice-President and General Managor, M. Mason; Secretary, M. T. Edgerton; Treasurer, Jno. K. Otley. Office, Prudential Building, Atlanta, Ga.

Bullfrog-Goldfield RR.—New Mortgage—Change in Control—Holding Co.—See Tonopah & Tidewater Ry., below — V. 85, p. 1461.

V. 85, p. 1461.

Camden & Trenton (Electric) Ry.—Notice to Bondholders.

—The protective committees, A. M. Taylor, Chairman, representing severally the general mortgage bonds of the Camden & Trenton Ry., the first mortgage bonds of the Trenton & New Brunswick RR. and the New Jersey Short Line RR., have issued a final notice that all bonds must be deposited with the depository, the West End Trust Co., Philadelphia, before May 25 1908. A Philadelphia paper says:

It is stated that more than 90% of the general mortgage bonds of the Camden & Trenton. over 75% of the Trenton & New Brunswick bonds and over 70% of the New Jersey Short Line bonds have been deposited. It was announced a month ago that about \$450,000 of the first mortgage bonds of the Camden & Trenton had been deposited with the Union Trust Co., Philadelphia, at the request of the committee, of which Edward Powell Is Chairman.—Ed. "Chronicle." I—V. 86, p. 856, 793.

Canadian Pacific Ry.—New Director.—Hon. James Duns-

Canadian Pacific Ry.—New Director.—Hon. James Dunsmuir, Lieutenant-Governor of British Columbia, has been elected director to succeed Clarence Mackay, who retired, owing to his inability to attend the meetings of the board.—V. S6, p. 720, 601. p. 720, 601.

Carbon County (Pa.) Street Ry.—Sold.—At the receiver's sale in Mauch Chunk on May 17, this property, including the trolley road from Mauch Chunk to Lehighton, power housz, &c., was bid in for \$20,000 by J. M. Dreisbach and Lafayette Lentz of Mauch Chunk and Andrew S. Keek of Allentown, representing a majority of the bondholders.—V. 80, p. 1362.

Chesapeake Western Ry. Co.—New Officers.—W. E. D. Stokes, 100 Broadway, New York City, has been made President, succeeding Robert McM. Gillespie, resigned, and A. H. Gleason has been elected Vice-President in place of Mr. J. J. Vatable, resigned. See V. 86, p. 1041, 980.

Chicago Consolidated Traction Co.—Purchase of Coupons of Underlying Companies by Chicago Railways Co.—Explanation.—The "Chicago Economist" of May 16 said:

of Undertying Companies by Chicago Railways Co.—Explanation.—The "Chicago Economist" of May 16 said:

There has been some query concerning the announcement of the company to the bondholders of the underlying companies, namely, the Cleero & Proviso Street Ry., Sorth Side Electric and Chicago & Jefferson Urban, that the Chicago Railways Co. will buy the coupons maturing May 1 1908, detached from the bonds in the case of all bondholder willing to sell on the understanding that the coupons are to be kept alive as the property of the Chicago Railways Co. Formerly, the Union Traction paid the deficits of the Comsolidated Traction and the coupons were canceled, but, under the new ordinance, the operating agreement becomes more indefinite and uncertain and advances to the company attended with greater against the advances to the Consolidated for the purpose of paying the subspans of the underlying bonds. If at any time in the future the operating agreement should be annulled, these coupons would be a llen on income prior to the coupons current at that time. This would probably result in placing the company in receivership until the advances made by the Chicago Railways Co. against the coupons of the underlying bonds should be met. Current coupons could not be paid until coupons bought by the Chicago Railways Co. were re-purchased and canceled.—V. 86, p. 1159.

Chicago & Eastern Illinois RR.—Offering of Equipment Trust Notes.—William Salomon & Co., New York, &c., are offering by advertisement on another page, at prices to yield 5½2%, equipment trust 5% gold notes of \$1,000 each, series "G," dated Oct. 1 1907. Amount of issue, \$2,480,000; outstanding, \$2,356,000; due in 19 semi-annual installments of \$124,000 each, from Oct. 1 1908 to Oct. 1 1917, inclusive. Bankers' Trust Co., New York, trustee. Interest coupons payable April 1 and Oct. 1. A circular says:

These notes are a direct obligation, issued for the purchase of 2,000 new steel-frame dump cars of 100,000 lbs. capacity each. The cost of the cars

payable April I and Oct. I. A circular says:

These notes are a direct obligation, issued for the purchase of 2,000 new steel-frame dump cars of 100,000 lbs, capacity each. The cost of the cars was \$2,73,7912, of which the railroad company paid \$25,7912 in cash and \$124,000 on the maturity of the first installment, thereby giving a total margin of 16% on the par value of the notes now outstanding. Title to the equipment is vested in the trustee until all of the notes are paid. The company has paid annual dividends of 6% per annum during the past 15 years on its preferred stock, of which \$8,830,700 is now outstanding, and during the past 15 years dividends ranging from 2% to 10% on its common, of which \$7,217,800 is outstanding, —V. 86, p. 917.

Chicago Railways.—Relations with Chicago Consolidated Traction Co.—Reason for Purchase of Coupons of Its Underlying Roads.—See Chicago Consolidated Traction Co. above—

New Securities Ready.—Assessment.—The Chicago Title & Trust Co. and the Harris Trust & Savings Bank, both of Chicago, have received and are ready to deliver in exchange for the certificates of deposit of the Harris Trust & Savings Bank and the Farmers' Loan & Trust Co., the appropriate securities in engraved form of the Chicago Railways Co., in respect of stock of the following companies:

North Chicago City Railway

North Chicago West Division Railway.

Chicago Subway Co.—New Bond Issue—Proposition to Holders of \$17,000,000 Bonds of Illinois Tunnel Co.—J. B. Russell & Co., N. Y., Chicago, etc., who as fiscal agents placed \$17,000,000 bonds of the Illinois Tunnel Co. (the remaining \$13,000,000 of the authorized issue having been pledged to secure loans aggregating \$9,500,000), are sending to the holders of these bonds a circular dated May 18 containing a summary of the proposition made by the Chicago Subway Co. to exchange said bonds for an equal number of bonds of the Chicago Subway Co., bearing the same rate of interest. The firm says:

The parties now in control of the company realize the importance of

The parties now in control of the company realize the importance having but one mortgage covering the whole property to provide mea for its entire future financing, and permit of the full development its present departments, and the acquiring of such other interests as we materially augment the strength and importance of the company's positional largely increase its earning power.

From every standpointathef exchange is an advantageous one for the bondholders of the illinois Tunnel Co.

The Chicago Subway bonds have the additional security of the Chicago Warehouse & Terminal Co., which fact would warrant the exchange without any other inducement, as the Terminal Co. owns all the leases made with the railroads and private property with which the tunnel is connected. This control of the exits from the tunnel under long-time leases is a very great protection to the property and its securities.

The parties in control also plan to extend the loans already made the Tunnel Co. pending their offering for sale the Subway bonds, and to advance \$1,000,000 more for construction and equipment purposes as required by the greamestly here believes of bonds will at once forward them for deposit under the plan to be funded States Mortgage & Trust Co., \$5. Cedar St., New York City, being careful not to detach the June 1 1908 coupons from the bonds, as the Trust Co. will remit its check for all June 1 1908 coupons attached to bonds deposited. For such bonds as may be piedged as collateral to loans, kindly sign and forward the enclosed "agreement to deposit," which agreement should be marked "confirmed," and also signed by the payee of the loan to which they are piedged.

All expenses for express or insured registered mail charges will be borne by the Subway Co.

by the pare of the loan to which they are pledged.

Alexpose of the loan to which they are pledged.

Alexpose of the loan to which they are pledged.

Proposed "First Lion" Bonds.—The Chicago Subway Co. proposes to authorize an indenture of mortgage and pledge to secure an issue of 20-year 5% "first Lion" Bonds.—The Chicago Subway Co. proposes to authorize an indenture of mortgage and pledge to secure an issue of 20-year 5% "first lien bonds," dated June 1 1908, redeemable at 105, and containing provisions for subsequent issues of additional series of bonds bearing a lower rate of interest and maturing later than June 1 1928. Said indenture shall contain provisions for the release from the lien of the mortgage of the Illinois Tunnel Co. and the sale, lease or other disposition of the telephone properties and rights of said Tunnel Co., or of any interest therein by virtue of the depos ted Tunnel bonds

(The plan provides that "no maximum of the amount of bonds to be issued" under the medical proposes for which bonds may be authenticated by provisions in the purposes for which bonds may be authenticated.

But it is a subsequently and the purposes for which bonds may be authenticated by provisions in the purposes for which bonds may be authenticated by a subsequently and the purposes for which bonds may be authenticated by Co. John S. The Subway Co. dated Dec. 1 1993, which may be deposited in acceptance of this plan on or before July 1 1908 (or such later date as its directors may specify). accompanied by the coupons maturing June 1 1908, and subsequently, on the following terms: For the princinal of all such Tunnel Co bonds will be purchased for cash at par.

Directors May Declar Plan Operative of Abandon II—June Coupon Purberlands of Sept. 17 purposes and the June 1 1908 coupon septialing to such deposited Tunnel bonds will be purchased for cash at par.

Extension of Loans—31,000,000 New Money.—The Subway Co. will arrange, from time to time, for an extension of the board of directors of said company, a sufficien

rull power to take all proceedings necessary to carry out the proposed arrangement. Compare circular in v. 86, p. 720. –V. 86, p. 794.

Columbus Delaware & Marion (Electric) Ry.—Preferred Stock.—The company filed on May 19 a certificate of reduction of capital stock from \$2,500,000 to \$2,100,000, and increase to \$3,000,000 by issuance of \$500,000 "A" preferred 6% cumulative dividend stock and \$400,000 "B" preferred, entitled to cumulative dividends of 1%, first year, one additional per cent each year to sixth year, and 6% thereafter.—V. 86, p. 546.

Delaware Lackawanna & Western RR.—Building Sold.— This company has sold to the Farmers' Loan & Trust Co. the building at the southeast corner of William St. and Exchange Place for a price said to be about \$700,000.—V. 86, p. 546, 543.

Denver Northwestern & Pacific Ry.—Reported Sale of Terminal Bonds.—The "Railway Age" of Chicago states that a block of \$1,800,000 bonds on this company's Denver

that a block of \$1,800,000 bonds on this company's Denver terminal property has been sold in London.

The Northwestern Terminal RR. was organized in July 1904 with \$2,500,000 capital stock, to build terminals in Denver for this company and any other road or roads which might wish to connect with it. (Compare V. 79, p. 1705; V. 81, p. 1315; V. 82, p. 1211.)—V. 86, p. 167.

Denver & Rio Grande RR.—Notes.—The new notes referred to in our last issue, which have been sold to finance the completion of the Western Pacific Ry., will be dated Aug. 1 and mature Aug. 1 1911 or 1913; interest dates Feb. 1 and Aug. 1, on which dates they may be converted into the new first and refunding mortgage 5% bonds of the Denver & Rio Grande at the rate of 110 for the bonds. These bonds will bear date July 1 1908 and \$22,500,000 of them will be deposited as collateral to secure the \$15,000,000 of Denver & Rio Grande 6% convertible notes.—V. 86, p. 1224, 1159. 1224, 1159.

Detroit Flint & Saginaw Ry.—Foreclosure Sale June 18.— The Detroit Trust Co., the mortgage trustee, gives notice by advertisement on another page that the sale of this property will take place June 18 1908 at Flint, Mich.

The company was organized to build an electric railway between Saginaw and Flint, Mich., of which 12 miles from Saginaw south though the village of Bridgeport to the village of Frankenmuth is now being operated by a receiver. Power-house and car barns located at Bridgeport. Franchises for complete right of way from Saginaw to Flint will be sold with the physical properties of the road as an entirety. The road, when completed, would consist of only about 35 miles.—V. 86, p. 856.

Illinois Central RR.—New Stock, &c.—Authorized.—The shareholders at their special meeting on May 18 approved the following propositions:

To increase the capital stock \$28,512,000, making a total of \$123,552,000. (The vote in this case was 633,785 against 48 in opposition.) To ratify the purchase of the Kensington & Eastern and the Memphis & State Line Railroad companies.

As stated in a circular cited in the "Chronicle" of April 18 (p. 981) shareholders of record May 28 will be permitted to subscribe at par until July 7 for \$14,256,000 of the new stock to the extent of 15% of their respective holdings, subscriptions payable 50% July 7 and 50% Sept. 17.—V. 86, p. 720, 981, 1042.

Illinois Tunnel Co.—Proposition to Bondholders.—See Chicago Subway Co. above —V. 86, p. 794, 720.

Maine Central RR.—Offering of New Guaranteed Bonds for Rejunding.—See Portland & Ogdensburg Ry. below.—V. 86, 229.

p. 229.

Interborough-Metropolitan Co., New York.—Extension for Two Years of 6% Notes Issued in May 1907.—Arrangements have been made to extend at the same rate of interest until May 27 1910 the time for payment of the principal of the remainder, \$4,545,000, of the issue of \$8,000,000 6% notes which were issued a year ago and which, as extended last November, would otherwise have matured May 27 1908. (See collateral, &c., V. 84, p. 1248; V. 85, p. 1401).—V. 86, p. 1159, 475.

International & Great Northern RR. -Judgments Entered. —Seven judgments, aggregating \$4,929,098, were entered against the company in the Fourteenth District Court at Dallas on May 14, in favor of the following plaintiffs:

Lehigh & Hudson River Ry.—Issue of Bonds Authorized.—
The Public Service Commission, Second Division, on May 18 granted the application of the company to issue additional general mortgage bonds, \$270,000 of the \$300,000 requested being allowed. The new bonds are to be issued for sidings, bridges, engine, car-house and machine shop. These bonds, bridges, engine, car-house and machine shop. These bonds, when sold, will make the total amount of the issue outstanding, \$1,590,000.

The Commission lays down the rule that an issue of stock or bonds cannot

when sold, will make the total amount of the issue outstanding, \$1,590,000.

The Commission lays down the rule that an issue of stock or bonds cannot be permitted to relimburse the treasury of the applicant for improvements previously paid for out of earnings. The statute, it is held, permits capitalization for four purposes only, namely, the acquisition of property, the construction, completion, extension or improvement of facilities, the improvement or the maintenance of service and the discharge of lawful redunding obligations. V. 85, p. 1513.

Marietta Columbus & Cleveland RR.—Agreement Canceled.— The Toledo & Ohio Central Ry., which on Feb. 1 began operating this road as agent, recently gave notice of its intention to relinquish the arrangement.—V. 86, p. 480.

Metropolitan Street Ry., New York.—Appellate Court Affirms Order Authorizing Receiver's Certificates.—The United States Circuit Court of Appeals in this city on Wednesday affirmed the decision of Judge Lacombe in March last authorizing the issue of \$3,500,000 6% receiver's certificates having a lien prior to the \$16,604,000 refunding 4s and \$12,500,000 general collateral trust 5% bonds with modifications noted below. Compare V. 86, p. 857, 668.

The appeal was taken by the trustees of the two mortgages and other calins against the Metropolitan Street and New York City Ry. companies.

Judge Ward, who writes the opinion, says:

"The justification of displacing liens is the preservation of the property, and when but one common debtor is involved the preference affects only the lien creditors, because the debtor, owing all his debts allke, is indifferent to the order in which they are paid. When, however, as here, there is a lessee defendant and owner defendant, both insolvent, though it may be proper to displace for the common benefit liens on both properties, it is also proper to determine whether, inter se, the debt of the lessee's creditors.

"The rights to be adjusted are those of: (a) the lessee's creditors, of whom the four-month creditors claim

for the benefit of strangers to the llen creditors, viz.: the lessee and its creditors.

"The rights to be adjusted are those of: (a) the lessee's creditors, of whom the four-month creditors claim a preference; (b) the lessee's stockholders; (c) the lessor's lien creditors; (d) the lessor's general creditors; (e) the lessor's stockholders.

"We think the differences of the parties can be reconciled by a modification of the order providing that the certificates shall be issued by the receivers in their capacities as receivers of both companies and shall be given a preference out of the net income and property of the lessee and out of the net income of the lessor, in case it shall operate the property, and out of all other property owned or leased by the lessor covered by both mortgages aforesaid, in order to insure the marketability of the certificates. The ascertainment of the rights and priorities, inter se, of all persons interested in the premises are reserved, to be finally adjudicated as provided in the modified order, and the form of certificate is to be amended in accordance with this opinion.—V. 86. p. 1159, 1042.

New York & Long Island RR.—Decision Affirmed.—The Court of Appeals on Tuesday affirmed the decision of the lower courts, which refused to grant an injunction restraining

court of Appeals on Tuesday affirmed the decision of the lower courts, which refused to grant an injunction restraining the city from interfering with the construction of the tunnel, pending trial of the action brought to determine the validity of the company's charter. Compare V. 85, p. 1339, 1518.

—V. 86, p. 669.

New York of the contraction of the tunnel, pending trial of the action brought to determine the validity of the company's charter.

New York City Ry.—Appellate Court Affirms Order for Receiver's Certificates.—See Metropolitan Street Ry. above.

Decision as to Car Rentals.—The Appellate Division of the Supreme Court in this city on May 15 sustained the decisions of the lower court holding that the company is liable for car license fees of \$50 per car per year used at any time during such year on the 6th, 8th and 9th Avenue lines. Compare V. 85, p. 1339.

The company contended that the license fees should apply to the average number of cars in daily use and paid what it conceded to be due. The city brought suit for the additional amount claimed to be due since 1902. The actions involve about \$80,000, but the decisions will, it affirmed by the Court of Appeals, control suits involving about \$500,000 and will permit the city to collect approximately \$100,000 additional revenue annually from the system for car-license fees.—V. 86, p. 1043, 858.

New York New Haven & Hartford RR.—Decision of Massachusetts Court.—The opinion of the Massachusetts Supreme

Judicial Court, referred to last week, holding illegal the control of six trolley roads in Massachusetts, was given in full in the "Banker and Tradesman" of Boston of May 16. The

in the "Banker and Tradesman" of Boston of May 16. The opinion concludes as follows:

"Directly or indirectly subscribing for, taking and holding or guaranteeing the bonds and dividends of another corporation in this Commonwealth, by a railroad corporation organized under our laws, is the exercise of that which would be a franchise if authority to do it had been granted by the Legislature." (The opinion points out that the necessary legislative permission was not obtained.—Ed.) "It is within the provision of the Stat. 1906. Chap. 372, and may be restrained by injunction under this statute."

Compare Item in last week's "Chronicle." page 1225.

Suit by Government.—The Government yesterday filed a petition in the U. S. Circuit Court at Boston alleging that the control of the various electric railways and the Boston & Maine constitutes a monopoly within the meaning of Sections.

Maine constitutes a monopoly within the meaning of Sections 1 and 2 of the Sherman Anti-Trust Act, and praying that it be prevented from exercising the same.—V.86, p. 1225, 1101.

Northwestern Elevated RR., Chicago.—Sale of Equipment Bonds.—The company has sold to N. W. Halsey & Co. and Russell, Brewster & Co. \$140,000 6% equipment trust notes dated Feb. 1 1908 and due \$14,000 each six months until Feb. 1 1913. These notes cover new equipment acquired at a cost of about \$185,000, to meet the requirements arising from the opening up of the Ravenswood branch.—V. 86, p. 421 p. 421.

Pittsburgh Youngstown & Ashtabula RR.—Bonds Authorized.—The stockholders on May 21 ratified the proposition to issue \$15,000,000 4% bonds for refunding and other purposes. Compare V. 86, p. 795; V. 85, p. 95.

Portland & Ogdensburg Ry.—Offering of Guaranteed Bonds.—Lee, Higginson & Co., Kidder, Peabody & Co., R. L. Day & Co., Estabrook & Co., all of Boston, &c., are offering at 104¾ and interest, yielding 4.15%, the unsold portion of a new Issue, limited to \$2,119,000, or less than \$20,000 per mile, of first mortgage 4½ % bonds, dated Nov. 2 1908 and due Nov. 1 1928, guaranteed principal and interest by endorsement on each bond by the Maine Central RR. Co. Interest payable May 1 and Nov. 1. A circular says:

To be issued to refund an equal amount of bonds maturing Nov. 1 1908. Secured by a first mortgage on the entire property, consisting of 109.10 miles of road extending from Portland. Me., through the White Mountains to Lunenburg. Vt., comprising the main line of the Maine Central RR. to northern Vermont, and giving this system its outlet to Quebec and the West. We are prepared to deliver negotiable interim receipts of the Maine Central RR. Co. discounted at the rate of 4½% per annum to Nov. 2 1908 and exchangeable on Nov. 2 for the engraved bonds.—V. 81, p. 1551.

Public Service Corporation of New Jersey.—Bond Issue

Public Service Corporation of New Jersey.—Bond Issue Authorized.—At the shareholders' meeting on May 18 the proposition to authorize an issue of \$50,000,000 5% gold bonds was duly approved. The present issue will be only \$3,725,000. See official statement by President McCarter in "Chronicle" of May 9, p. 1160.

in "Chronicle" of May 9, p. 1160.

Rio de Janeiro Tramway Light & Power Co.—New Directors.—The following additions have been made to the board of directors to represent the group of French and Belgian bankers which is handling the company's issue of second mortgage debenture bonds:

Edouard Ouellenec, a leading consulting engineer of Paris; Jean Javal, a well-known engineer connected with many leading electric-light and tramway companies in France, and Th. Verstracten of Brussels, Fresident of the Lisbon Gas Co. and having large interests in several Continental electric and gas enterprises.

Ottering at Second Martgage Debeutures —Of the \$17,500—

Offering of Second Mortgage Debeutures.—Of the \$17,500,-000 5% second mortgage debentures, running 50 years from April 1 1908, but subject to sinking fund drawing beginning April 1 1918, \$4,450,000, or 22,250,000 francs, were offered on May 12 in Paris, Brussels and Liege at 82, the list closing on May 18.

At Paris subscriptions were received at the Banque Transatiantique, at the Credit Foncier et Agricole d'Algerie and by Razsovich et Gers.

Status .- A circular issued from the London office May 4 says in part:

Status.—A circular issued from the London office May 4 says in part:

All the construction work in Brazil, which has been in hand for several, years, is nearing completion. At Rio das Lages, where the hydro-electric installation is located, the work is well advanced. The large dam should be completed within the next 30 days.

In the power station at the present time there are three generators in commission, with an aggregate capacity of 26,000 h. p., which will be ample for the requirements of the business for the next six months. A fourth generator, of 3,700 h. p., capacity, will be ready for operation in 30 days. The last two generators have been shipped, and all the work at the power station in connection with the crection of the generators, transformers and switchboards should be finished by Sept. 1 the City of Rio de Janeiro; Motes, output, was are named at the control of the generators, transformers and switchboards should be finished by Sept. 1.

Motes, output, was are named at 1.354; incandescent lamps, 19,945; ventilating fans, 538. Contracts have been closed for additional motors, 3,246 h. p.; are lamps, 110; incandescents, 8,867. There is likely to be a large increase. The transway system comprises of 130 miles of which 37 are operated by electric and 93 by animal traction. It is expected that 39 more miles will be converted and in operation by the end of the year, and that within two years the whole system will be operated electrically. (The advertisem int of the Paris bankers states that the gross receipts of the company in 1907 were 32,550,909 francs (say, 36,510,182.—Ed.) and the net receipts were 11,017,692 francs (or about \$2,205,538.—Ed.). The income from the sale of electric energy, it is stated, is increasing at the rate of 200,000 francs (\$40,000) a month, while the installation of electric service on the part of the tramway system still operated with animal power is expected to reduce the cost of operation thereof from 63%, as at present, to about 40%. The company's franchise for telephone

San Francisco Oakland & San Jose Consolidated Ry.—
New Bond Issue.—The shareholders have authorized a consolidated mortgage to secure \$7,500,000 bonds, of which \$4,500,000 will be reserved to meet the present debt of the old San Francisco Oakland & San Jose Railway, consisting of \$3,000,000 first mortgage and \$1,500,000 second mortgage 5s due in 1933. See V. 86, p. 722.

Seaboard Air Line By.—Receivers' Certificates Over-Subscribed.—A syndicate, with the National City Bank of New York as manager, has purchased \$3,000,000 6% receivers'

certificates running for three years from June 1, but subject to call at any time after six months. The syndicate was oversubscribed. Receiver Warfield states that the issue is made to provide for the interest payments on underlying bonds, to pay the interest and principal matured and about to mature on the various car trusts, for certain new construction, and a number of other purposes designated in the decree of the Court.—V. 86, p. 1160, 1101.

Seattle (Wash.) Electric Co.—Bonds Offered.—N. W. Harris & Co., New York and Boston, and Lee, Higginson & Co. and Estabrook & Co., Boston, are offering at 93½ and interest, by advertisement on another page, \$2,500,000 Co. and Estabrook & Co., Boston, are offering at 93½ and interest, by advertisement on another page, \$2,500,000 "consolidated and refunding mortgage" sinking frund 5% gold bonds dated Aug. 1 1907. Authorized iss re, \$25,000,-000; outstanding (including the aforesaid \$2,500,000), \$5,-000,000; reserved to refund outstanding bonds and notes, \$9,249,000; remainder reserved under stringent provisions for future requirements. The company operates substantially all the street railways and does the greater part of the electric lighting and power business of the city of Seattle, the population of which has increased from 3,535 in 1880 to 42,837 in 1890, to 80,671 in 1900 and 240,000 (estimated) in 1907

Gross Earnings of System for Cal. Years (Puget Sound Power Co. included.) 1907. 1906. 1905. 1904. 1903. 1902. \$4,104,794 \$3,239,074 \$2,683,223 \$2,348,634 \$2,096,725 \$1,878,101

1906 --- 3,239,074 1,333,972 487,552 99,056 756,364

The net earnings in 1907 were substantially double the present interest charge (\$735,800), although no benefit had thea been received from the additions, extensions, &c., on account of which these \$2,500,000 bonds were issued. The commany has paid dividends of 6% per annum on its preferred stock continuously since October 1901, and up to March 31 1506 had accountulated a surplus of \$1,312,904, which is been pit back into the properties; \$564,000 first mortgage bonds have also been retired at a cost of \$386,006. Further particulars regarding the bonds, property, &c., were given last July in connection with the offering by the same firms of \$1,500,000 bonds secured by the mortgage, but having a conversion feature not possessed by the later issues. See V. 85, p. 222.

Southern Railway.—Offering of \$15,000,000 Convertible Gold Notes Dated May 1 1908 and Payable on or Before May 1 1911.—J. P. Morgan & Co. announce, by advertisement on another page, on behalf of the syndicate which has purchased the above-mentioned notes, that applications for the same at the price of 98½% and accrued interest, will be received, payable at their office, 23 Wall St., New York, as follows: On application, \$50 per \$1,000 note; on June 1 1908, \$935 per \$1,000 note and accrued interest.

June 1 1908, \$935 per \$1,000 note and accrued interest.

As stated last week, holders of "two-year 5% sterling notes maturing June 1 1908 and July 2 1908" may deposit their notes and will receive preference in allotment to the extent of the notes so deposited, and depositors of notes maturing June 1 1908 will receive a cash payment of 535 per note and depositors of notes maturing July 2 1908 will receive a cash payment of \$30 per note in adjustment of difference in price and interest. Preference in allotment will also be given to registered holders of stock trust certificates making application on the special form enclosed. Subscriptions will also be received and sterling notes maturing June 1 and July 2 may be deposited at the offices of J. S. Morgan & Co., 22 Old Broad St., London, E. C. Subscriptions will also be received and sterling notes maturing June 1 and July 2 may be deposited at the offices of J. S. Morgan & Co., 22 Old Broad St., London, E. C. Subscriptions will also be received and sterling notes maturing June 1 and July 2 may be deposited at the offices of J. S. Morgan & Co., 22 Old Broad St., London, E. C. Subscriptions will also be received and sterling notes maturing June 1 and July 2 may be deposited at the offices of J. S. Morgan & Co., 22 Old Broad St., London, E. C. Subscriptions of \$15,000,000 & %; convertible gold notes, payable on or before May 1 1911, are to be secured by pledge under trust agreement with New York Trust Co., trustee, of the following collateral:

\$20,000,000 Southern Railway "development and general mortgage" 4% bonds. 2,000,000 Tennessee Central RR. prior lien mortgage 4% bonds. 2,000,000 Triginia & Southwestern Ry, first consol. mtge. 5% bonds. The holders of notes are to have the right at their option at any time,

2,000,000 Virginia & Southwestern Ry. first consol. mtge. 5% bonds. The holders of notes are to have the right at their option at any time upon five days' pre'ur's notice to convert their notes at par into the pledged Southern Rallway "development and general mortgage" 4% bonds, series "A," at the following rates: Until and including May 1 1909 at 80% thereafter until and including May 2 1910 at 82½%, and thereafter until and including May 1 1911 at 85%, interest in each case, and upon both notes and bonds, being allowed and adjusted.

Subject to the prior exercise of the foregoing option, the rallway company is to have the right at any time to withdraw any or all of said collateral py payment therefor in cash at the following prices: "Development and general mortgage" 4% bonds, series "A," at the same prices and for the same periods as provided above for conversion of the notes; Tennessee Central prior lien mortgage 4% bonds at not less than 85%; Virginia & Southwestern first consol. mortgage 5% bonds at not less than 85%; Virginia & Southwestern first consol. mortgage 5% bonds at not less than 95%, with accrued interest in each case. Such cash is to be applied by the trustee to the purchase or redemption of the notes as provided in the trust indenture. It is proposed to apply the proceeds of these notes substantially as follows. To provide for c oltal obligations accrued and to accrue, repre-

It is proposed to apply the proceeds of these notes substantially as follows
To provide for c pital obligations accrued and to accrue, representing generally the retirement of equipment obligations, the
purchase of steel rail, construction now under contract, and
additional betterments and improvements to the properties
covered by the "development and general mortgage," say \$5,500,000
To provide for the redemption of the sterling notes which will
be mature on June 1 and July 2 next, say 3,000,000
The balance to be used to reimburse the treasury to that extent
for moneys heretofore expended for construction and capital
account; say 3,500,000

Equity in the Property, Subject to the "Development and General Mortgage"
Above the Amount of Such Bonds Now Outstanding.

Third Avenue RR., New York.—Receiver's Certificates Authorized.—Judge Lacombe in the U. S. Circuit Court on Wednesday a athorized Receiver Whitridge to issue \$2,500,000 of one-year 6% certificates to purchase equipment and make repairs and improvements on the lines of the system. The certificates will rank after the \$5,000,000 first mortgage but prior to the \$37,530,000 first consolidated mortgage bonds. Compare remarks in report of receiver given last week, page 1221.

(The) Tidewater Company.—Offering of \$17,000,000 6% First Lien 5-Year Notes, Guaranteed by H. H. Rogers.—Redmond & Co., New York and Philadelphia, and the Equitable Trust Co., New York, by advertisement on another page, announce that they will receive applications for subscriptions at 98½ and interest for an issue of \$17,000,000 first lien 5-year 6% guaranteed gold notes, guaranteed, principal and interest, unconditionally, by Henry H. Rogers. These notes are daried June 1 1908 and are due June 1 1913, but are convertible at par at the option of the holder for first mortgage 5% 50-year gold bonds of the Virginian Ry. Co. at any time before April 1 1913, or, in case of notes called for redemption, within 30 days after notice of such call, all or any of the notes being redeemable at company's option at 101 and interest when drawn by lot Interest payable June 1 and Dec. 1. Equitable Trust Co. of New York, trustee. Denomination \$1,000 (c\*).

The application list will be opened May 27 at 10 a. m. and may be closed at any time without notice. A deposit of 5% must accompany all subscriptions for the new notes.

The holders of the outstanding \$10,000,000 notes of the Tidewater Company without are to be called for navaner, may deposit with the times.

of 5% must accompany all subscriptions for the new notes. The holders of the outstanding \$10,000,300 notes of the Tidewater Company which are to be called for payment may deposit with the time samed their notes or central Trust Co. certificates of participation in such notes and receive new notes in exchange to the extent of 50% of the face amount of the notes so deposited. Upon notes so exchanged, interest will be adjusted to July 1 and a bonus in cash of \$15 per \$1,000 note will be paid. This privilege may be withdrawn by the bankers without notice. Owing to advance subscriptions having been received for more than the entire \$17,000,000 notes, the holders of the old notes are offered the right to subscribe for only \$0% of the face amount of their present holdings.

to subscribe for only 50% of the face amount of their present holdings.

Abstract of Letter from George H. (Church, Treasurer of The Tidewater Company, Dated May 21 1908.

The proposed Issue of the Tidewater Co.'s "first lien 5-year 6% guaranteed gold notes" will be unrouditionally guaranteed, as to both principal and interest, by Mr. Henry H. Rogers, and will ultimately be secured by deposit of collateral with the Equitable Trust Co. of New York, as trustee, as follows:

Pirst mortgage 5% 50-year gold bonds of the Virginian Ry. Co.

(owning the railroad generally known as the Tidewater Roud), face value.

Pirst mortgage 5% 50-year gold bonds of the Virginian Terminal Ry. Co. (owning the terminals of the Tidewater Roud at Sewell's Point, Virginial, face value.

3,000,000

To be deposited with the trustee by Henry H. Rogers, as guarantor of the notes, Income-producing stocks and bonds now yielding an annual income of about \$700,000, and having an aggregate value of over.

Total

Total

346,500,000

Total

346,500,000

Of the proceeds of the notes, \$10,000,000 are to be used in retiring the Tidewater Company's existing issue of notes and approximately \$6,000,000 are to be deposited with the trustee to be paid out from time to time against actual expenditures in the completion of the Tidewater Road and its Serminals. The existing \$10,000,000 notes which are not due until February The Virginian Ry. Oo. is entitled to issue upon the construction of its main line of 442 niles, from Deepwater in West Virginia to Sewell s Point on Hampton Roads, Virginia, its first mortgage \$5°, 50-year gold bonds to the aggregate amount of \$33,500,000, all of which have been or will be issued to the Tidewater Company and will be pledged as security for these notes. Over \$25,000,000 of these bonds have already been issued and will be lodged with the trustee.

The Virginian Terminal Ry. Co. is entitled to issue upon the construction of the coal-loading pler upon its terminal property at Sewells Point, its first mortgage 5°, 50-year gold bonds to the aggregate amount of \$34-000,000, all of which have been, or will be, issued to the Tidewater Company and will be pledged as security for these notes; \$500,000 of these bonds have already been issued and will be deposited with the trustee.

By reason of the pledge of all the first mortgage bonds of the Virginian Ry. Co. and of the Virginian Terminal Ry. Co., the notes will be a first lieu upon all the property of these companies in respect of which, after the application of the proceeds of the notes, there will have been expended in cash more than \$36,000,000.

The line of the Virginian Ry. Co. from Deepwater, on the Kanawha River, in West Virginia, to Princeton, near the Virginia line, a distance of about 25 miles, passes directly through the Pocahouta-New River coal fields. At Princeton will be local assembly the grade is put six-tenths of 1% or about 30 feet to the mile. Over this section of the haul, there being only one exception of the miles. Over this

and the steel bidges and viaducts are designed for the heaviest weight which they can possibly be required to sustain. From the commencement of construction the work has been prosecuted with all possible energy and dispatch consistent with economical and lasting results. The grading and tunneling have been completed upon about 95% and rails laid upon about 75% of the total mileage; about one-half of the line (a portion at each end) is now in operation. Practically all the steel work for the completion of the railway and a large portion of that required for the coal pier is all ready for erection. It is expected that the entire line will be in operation before May 1 1909.

The bankers add that the engineers have endeavored everywhere to eliminate grades and curvature, with the result that over practically all of the line the maximum grade is only two-tenths of 1%. It is expected that, owing to this extraordinary construction, it will be possible to move a train load of 4,000 tons with one locomotive, as against an average trainload on the Norfolk & Western, its principal competitor, of 700 tons. The result is a second of the second control cont

Tonopah & Tidewater Railway below.—V. So, p. 795, 109.

Tonopah & Tidewater Ry.—New Holding Company.—
This company is being organized under the laws of Delaware with \$5,280,000 of authorized capital stock in shares of \$100 each, all having voting power, consisting of \$3,640,000 "A" stock and \$1,640,000 "B" stock ("A" having no preference over "B") it having been arranged to acquire in exchange for the "A" stock the entire \$1,500,000 capital stock of the Tonopah & Tidewater Railroad and in exchange for the "B" stock the entire outstanding share capital (\$2,000,000) of the Bullfrog-Goldfield RR. the Bullfrog-Goldfield RR.

The last-named company was organized with the expectation that its line, now in operation from Bullfrog to Goldfield 83 miles, would be controlled by the Tonopah & Goldfield Rr. Co., but the two properties have been separated, the Tonopah & Goldfield not being emb-aced in the present amalgamation.

The new holding company will maintain corporate existand in accordance with the plan agreed upon the Bullfrog-Goldfield RR. Co. will make a consolidated mortgage to the Fidelity Trust Co. of Philadelphia, as trustee, to secure an issue of \$2,000,000 5% 30-year gold bonds dated July 1 1908, which will be applicable as follows:

Purposes for Which \$2,000,000 Consols of Bullfrog-Goldfield RR. May Be Issued.

Be Issued.

To be issued at once to take up the \$1,250,000 of Bullfrog-Gold-field RR. Co.'s first mortgage 6% bonds which are held by syndicate.

Sold as below stated to provide for obligations of the Bullfrog-Goldfield RR. Co. incurred for construction, equipment, &c. 350,000 Reserved to take up as presented the \$250,000 Bullfrog-Goldfield RR. bonds (remainder of the \$1,500,000 authorized) held by the public.

Reserved for new construction and equipment, or other legal purposes 150,000

Reserved for new construction and equipment, or other legal purposes

The Tonopah & Tidewater Railroad Co., the controlling interests in which dominate the new holding company, owns a line 168 miles in length extending from Ludlow, Cal., on the Atchison Topeka & Santa Fe Ry. to Beatty, Nev., 168 miles, with a branch to Ryan, 7 miles. On account of this mileage £500,000 debenture certificates were issued in 1905, bearing the guaranty of the Borax Consolidated, Ltd., the great borax corporation. In Feb. 1908 it was proposed (V. 86, p. 722) to issue a further £175,000 of 5% sterling bonds bearing a similar guaranty for the purpose of extending the line to Tonopah, Nev., 110 miles. A further extension from Goldfield to Ely, 200 miles, is believed to be in contemplation. Further particulars follow:

An agreement between the holding company and the two railroad companies provides that the earnings of the two operating companies shall be kept as separate accounts, and that each road shall have the benefit of its own local traffic and fair proportionate rates on joint traffic; also that if in any year the earnings of either road prove insufficient to cover its fixed charges, then any surplus of the other road for that year, after the payment of fixed charges, shall be devoted to make up the deficiency of the other.

F. M. Smith (who built the Tonopah & Tidewater) agrees to purchase the \$350,000 bonds mentioned above, as sold, and to give therefor his promissory notes, \$185,000 payable Aug. 1 1908 and the balance, \$165,000, in two years, the notes bearing 6% interest. The collateral for these notes will be the \$550,000 bonds mentioned above, as sold, and to give therefor his promissory notes, \$185,000 payable Aug. 1 1908 and the balance, \$165,000, in two years, the notes bearing 6% interest. The collateral for these notes will be the \$550,000 bonds and the stock received, together with 1,500 shares of Oakland Traction Co. 6% preferred stock.

The officers of the holding company are:

F. M. Smith, Oakland, Cal., President; D. W. Van Buskirk, First Vice President, Bayonne, N. J.; Artbur Brock, Second Vice-President, Phila delphia, Pa.; C. B. Zabriskie, Secretary and Treasurer, New York City John Ryan, General Superintendent, Ludlow, Cal.; W. B. Alberger Traffle Manager, Los Angeles, Cal.

Underground Electric Railways Co. of London, Ltd.—
Plan Operative.—Under date of London, May 15 1908. Secretary W E. Mandelick, by order of the board, announces that "the holders of over 90% of the 5% 'profit-sharing secured notes' having deposited their notes, and having assented to the plan of readjustment dated April 14 1908, the company will proceed with the readjustment pursuant to said plan." See plan, &c., in V. 86, p. 1039, 1044, 1101.

United Railways Co. of St. Louis.—Supreme Court Upholds One-Mill Tax.—The United States Supreme Court on Monday, reversing the lower courts, handed down a decision sustaining the right of the city of St. Louis to levy a tax of one mill per passenger on the street railways, payable quarterly, under the ordinance of March 25 1903, which supplanted a former ordinance under which the city collected a license fee of \$25 per car per year.

The amount of back taxes due under the decision from Jan. 1 1904 to Jan. 1 1908 is about \$850,000. On the basis of present earnings the annual tax would be about \$220,000. Counsel for the company contend that the decision embraces only one feature of the law, namely the question whether the ordinance impaired a contract obligation, and say that there are other

grounds not heretofore raised, on which the matter will be realisted in the State courts, over which the Federal courts have no jurisdiction, including the point that the tax is unreasonable and excessive. Justice Daly, who writes the opinion, says that the case is virtually decided by the rule laid down in Railway Co. vs. New Orieans, which holds that because a street railway company has agreed to pay for the use of the streets of the city for a given time, it does not thereby create an involable rontract which will prevent the exaction of a license tax.—V. 86, p. 1102.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Amalgamated Oil Co., California.—Acquisition.—Touching the report that the Associated Oil Co. had purchased for \$700,000 the Picot Ranch oil property of 200 acres, lying just across the Los Angeles-Pacific Ry. tracks from the wells of the Union and Amalgamated companies, W. S. Porter, General Manager of the Associated Oil Co., replying under date of April 7 to our letter of inquiry, said:

under date of April 7 to our letter of inquiry, said:

This tract was really purchased by the Amalgamated Oil Co. the control of which company is owned by the Associated Oil Co. The price for the property named is about correct, and is to be paid in cash. Whether the property will be operated as a part of the Amalgamated Oil Co. or under a different incorporation we have not yet determined.

Dividends Now Paid Monthly.—We are informed that the Amalgamated Oil Co. paid a dividend of \$1 per share(1%), or \$50,000, per month, in March, April and May 1908, and the officers intend to make monthly distributions from this time on.—V. 83, p. 92.

The C. H. Geist Co., a gas and electric syndicate of Chicago, which recently purchased the electric light plant at East Chicago and Indiana Harbor, Ind., formerly owned and operated by the city of East Chicago, has organized the Indiana Harbor & East Chicago Electric Co., with the fol lowing officers: C. H. Geist, President; C. H. Weak, Vice-

President; C. W. Fox, Secretary and Treasurer. 85, p. 1405.

Jersey Oity Water Supply Co.—Decision Awarding Compensation for Water Furnished.—Vice-Chancellor Stevens at Newark on May 2 handed down a lengthy opinion in the suit brought by the city on Aug. 1 1905 to compel specific performance of the contract for construction of water works.

Performance of the contract for construction of water works. The Court holds that the company is entitled to receive payment for the water furnished and to be furnished at the contract rates, averaging about 534 per million gallons, until the city shall have completed the purchase of the plant by the payment of the amount awarded by the Court.

The contract price for the works is \$3,7595,000, from which amount the city is allowed relates amounting to, approximately, \$175,000, for the estimated expense of bringing the plant up to contract requirements, and the Court also deducts the contract penalty of \$500 per day for delay in company was turned on, less six days, during which the company was retarded by the injunction proceedings brought by the city.

A rule to show cause, obtained by the city.

A rule to show cause, obtained by the city, why the suit should not be re-opened was returnable on May 5. Compare V. 81, p. 1103; V. 80, p. 1974.

Mexican Petroleum Co., Ltd. (of Delaware), Los Angeles.

—Bond Issue.—The "Los Angeles Times" of April 30 said:

At a stockholders' meeting yesterday afternoon it was decided to issue bonds of the Mexican Petroleum Co., Ltd., and its sub-corporation, the Huasteca, to the amount of \$1,000,000, bearing interest at \$5°\_5 and running 20 years. The issue will be sold next week, but it is very largely subscribed the Huasteca property.

The Mexican Petroleum Co., Ltd., is paying dividends to the amount of about \$1,000,000 a year. Its wells at Ebano hold up excellently, the big gusher in particular pouring out its product for four years, and is now giving 1,600 barrels a day. Asphalt made from its oil is being exported in large quantities to England, Germany, France, Denmark and Austria. The company is delivering over the minimum of 6,000 barrels for fuel to the Mexican Petroleum Co., Lomark and Austria. The company is delivering over the minimum of 6,000 barrels for fuel to the Mexican Petroleum Co., Lomark and Austria. The company is delivering over the minimum of 6,000 barrels for fuel to the Mexican Central, and more for road sprinkling.

Sloss-Sheffield Steel & Iron Co.—Quarterly Dividend on Common Stock Reduced from 1½ to 1%.—The directors on May 19 declared a quarterly dividend of 1% on the \$10,-May 15 declared a dealer of vivolence 2 on stock of record May 25. This corresponds to a reduction in the annual rate from 5% maintained ever since distributions were begun in 1905, to 4%.—V. 86, p. 859, 665.

Southern Steel Co.—Plan of Reorganization Dated May 15 1908.—Announcement is made by advertisement on another page of the terms of a plan of reorganization which is sub-

mitted by the following committee:

James T. Woodward, Chairman, Otto T. Bannard, Robert B. Van
Cortlandt, Walter T. Rosen, Franklin Q. Brown, W. P. G. Harding,
Cornellus Vanderbilt. Counsel, Hornblower, Miller & Potter.

Secretary, D. G. Bolssevaln, 30 Plme Street. New York City.

A pamphlet containing the plan says in substance: Receivers in bankruptcy proceedings were appointed Oct. 24 1907 and trustees in bankruptcy Feb. 3 1908. The receivers found it necessary to

discontinue the operation; of the works which have since remained closed. The company defaulted on the interest due Nov. 1 1907 on its first mortgage 5% bonds dated Dec. 15 1905 (V. 82, p. 696; V. 85, p. 1146), and on the interest due Dec. 1 1907 on its 5% collateral trust gold notes dated Dec. 1 1906 (V. 85, p. 1345). The Georgia Steel Co., the Lacey-Buck Iron Co. and the Chattanoga Iron & Coal Co. ("subdidlary companies"), all of the capital stocks of which are owned by the Steel Company, have defaulted in the payment of interest, rentals and royalites due under certain of their respective mortgages and leases. The necessity of a prompt reorganization is therefore apparent.

Estimated Results of Operation of New Company under the Reorganization.
The reports received by the committee give an estimate for the average, net earnings of the combined properties of \$1,200,000 per annum, as to which the security holders and creditors are referred to the letter from the trustees in bankruptcy.

Estimated average annual net earnings from operations. \$1,200,000 Deduct—Interest on funded debt:
\$360,000 Ga. St. Co. 3% bits. \$48,000 | \$590,000 Chatt. Ir. & Coal 6s \$35,400 280,000 Ga. St. Co. 5% 2dM.

mtge. notes. \$14,000 | company at 4% \$25,745,000 bonds of new 220,800 425,000 Lacey. Buck 6s. \$25,500 } \$352,700 Dividends on the \$7,000,000 6% preferred stock. \$352,700 Dividends on the \$7,000,000 6% preferred stock. \$420,000

Balance, surplus, being equal to 4.27% on new common stock. \$427,300

After 5 years the interest on the new bonds will be advanced to 5%.

This estimate takes no account of earnings to be derived from the sale of coal in the open market.

The board of directors of the new company will be named by the reorganization committee, and in order to insure a continuation of their management for a reasonable time it is proposed to classify the board so that not more than one-fourth of the members shall be elected in each year. A map accompanies the plan of reorganization, showing the location of the various properties and plants of the company and their close relationship for economical operation.

Deposits under the plan must be made on or before June 15 1908, (1) first mortgage bonds, collateral trust notes and certificates of stock with the New York Trust Co., 26 Broad Street, New York City; (2) promissory notes or other obligations of the Steel Co. with the First National Bank, Birmingham, Ala., or the New York Trust Co., New York City.—V. 86, p. 485, 424.

#### United States Smelting, Refining & Mining Co .- Report .-For calendar year:

Calendar Total net Int., Dep., Dire. on Dividend on Balance Year—Income. Reserve, &c. Pref. (7%)
1907. - \$2,386,541 \$318,275 \$1,672,348 (6 \( \frac{1}{2} \) \( \frac{1}{2} \)

New Directors.—At the annual meeting on Thursday, Frank G. Webster, B. Preston Clark, Robert J. Edwards and Stephen L. Bartlett were added to the board, also two other men whose names are not announced, and who are probably to be replaced later.—V. 86, p. 55.

United States Steel Corporation.—Prices Stand—Meetings of Manufacturers Discontinued for Summer.—After the adjournment of the meeting of leading steel manufacturers from all sections of the country, held in the offices of the United States Steel Corporation on Thursday, Judge E. H. Gary, who presided, gave out the following:

At the meeting to-day of representatives of the principal manufacturers of steel in this country, the opinion was excressed by each one present that the prices of steel are reasonable and should not be reduced; that reduced prices would not increase purchases; and that most of their customers do not expect or desire any changes. The opinion was unanimous that the meetings should be discontinued for the summer months unless the Chairman should deem it advisable to meet at any time for reasons which do not now appear.—V. 86. p. 1096, 922.

Welsbach Company, Philadelphia.—New Director.—Morris L. Clothier has been elected a director, to succeed W. W. Gibbs, who resigned.—V. 85, p. 669.

Waltham Watch Co .- Balance Sheet .- See "Annual Reports" on a preceding page.

ports" on a preceding page.

Dividend on Common Stock Reduced.—The semi-annual dividend declared May 15 on the common stock (\$7,000,000), payable July 1, was only \$\frac{3}{4}\$ of \$1\%\_0\$, as against \$1\sqrt{2}\%\_0\$ previously paid each six months since the re-incorporation in 1907. The "Boston News Bureau" says:

The action of the directors in reducing the common stock dividend was due to a 40\% reduction in sales in the past six months. Up to last November the sales of the company were showing a large increase, but since the beginning of the business depression there has been a steady accumulation of manufactured watches, which has tied up a considerable amount of capital. The Waltham plant is now being run on a five-day-a-week schedule with full forces.—V. 85 p. 528

"Harnessing the Clouds" is the title of a well-prepared booklet covering the development of water power by the Commonwealth Power Co. for the distribution of high-tension electric current over their large territory in southern Michigan for municipal and commercial purposes, lighting, transportation and manufacturing, in connection with which huge concrete dams have been built across the Grand and Kalamazoo rivers. Copies will be mailed on application to Wm. Hughes Clarke, dealer in investment securities and bank stocks, 415 Ford Building, Detroit Mich.

—Beginning with the issue of June 5, the "Railroad Gazette" and "The Railway Age" will be issued as a single combined periodical under the name "Railroad Age Gazette." The general offices of the consolidated paper will be in New York, but it will have an editorial and business force in the Chicago office of the same calibre, size and importance as that at the office of publication, and it will also have a breach office at Pittsburgh. branch office at Pittsburgh.

Phillips. Mr. Sensenich was connected with the Merchants' National Bank of Philadelphia for nine years.

—Effingham, Lawrence & Co., members New York Stock Exchange and Chicago Board of Trade, have removed from 1 Nassau Street, corner Wall Street, to new offices in the Trinity Building at 111 Broadway. Effingham, Lawrence and Robert H. Simpson are members of this firm, which has private wires to the private lettice. private wires to the principal cities.

—Messrs. Wm. A. Read & Co., Bankers, New York, are offering in another column a choice list of municipal and railroad bonds which are legal investments for savings banks and trust funds in New York State; several of the issues are exempt from taxation.

## The Commercial Times.

#### COMMERCIAL EPITOME.

Friday Night, May 22 1908.

A more confident feeling is noticeable in trade, despite unfavorable weather. No very marked improvement has occurred, but the outlook generally is considered more hope-

curred, but the outlook generally is considered more hopeful than in the recent past.

LARD on the spot has been firmer, though without marked change in prices. The demand has continued slow but the receipts of live hogs at Chicago have been small and offerings of products have been light. Western 8.45@8.55c. and City 8@8½c. Refined lard has been firmer for Continent and steady for other grades. Trade has been quiet and confined to local jobbers. Refined Continent 9c., South American 9.60c. and Brazil in kegs 10.85c. The speculation in lard futures at the West has been moderately active. Pices have been firm as a rule, influenced by small receipts of live hogs, firm prices at the stock yards and light offerings. Packers have bought at times, through various commission houses.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

Packers have bought at times, through various commission houses.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

Sal. Mon. Tues. Wed. Thurs. Frf.
May delivery 8.32½ 8.37½ 8.50 8.45 8.50 8.49
July delivery 8.40 8.42½ 8.57½ 8.57½ 8.57½ 8.47½
September delivery 8.57½ 8.60 8.72½ 8.75 8.65

PORK on the spot has ruled firm. There has been a small jobbing trade. Dulness has been offset by light offerings and the firmness of other hog products and the small movement of live stock. Mess \$14 50@\$15 25, clear \$16 50@\$17 25 and family \$17@\$18. Beef has been firm. Trade has been quiet, but sales would be larger exept for the smallness of stocks. Mess \$13@\$13 50, packet \$14@\$15, flank \$13@\$13 50, family \$16@\$16 75 and extra India mess \$23@\$24 50. Cut meats have ruled firm. There has been a good inquiry during the week, and sales would have been larger but for the smallness of supplies, the demand at times being larger than the production; pickled hams, Western, 10@ 10%c. pickled bellies, 14@10 lbs., 9@9½c. Tallow has been quiet but firm on small supplies; City 5¼@5%c. Stearines have been quiet and steady; cloo 11c. and lard 10@ 10½c. Butter has been quiet and firmer; creamery extras 23½c. Cheese has been quiet and steady; State, f. c., small, colored, fancy, 14½c.; white 14¾c. Eggs have been quiet and steady; Western firsts 17@17½c.

OIL.—Cottonsed has been active and higher; prime summer yellow 48@49c.; winter 49@50c. Linseed has been firm, with trade fairly active, the demand being limited to small lots. Crushers show little disposition to book orders ahead. City, raw, American seed, 44@45c.; boiled 45@46c.; Calcutta, raw, 70c. Lard has been quiet and frm; prime 67@70c. and No. 1 extra 53@55c. Cocoanut has been firm, with a fair demand for small lots for immediate use. Cochin 7½@7½c. and Ceylon 6½@6.0c. Olive has been firm, with a fair demand for small lots for immediate use. Cochin 7½@7½c. and Ceylon 6½@6.0c. Olive has been moderately active and steady; yellow 65@80c. Codh has been moderately active and steady; olive a

July 6.10c. November 6.00c. February 6.00c. August 6.05c. December 6.00c. April 6.05c. O. SUGAR.—Raw has been dull and easier. Centrifugal 96-degrees test, 4.24c., muscovado, 89-degrees test, 3.74c., and molasses, 89 degrees test, 3.49c. Refined has been quiet and steady. Granulated 5.40c. Teas have ruled firm, with a better demand from distributers. Spices have been quiet and steady. Hops have been dull and steady. Wool has been more active and firm.

PETROLEUM.—Refined has been in good demand and firm. Freight room has been engaged for 180,000 cases for export to Java. Refined barrels 8.75c., bulk 5c. and cases 10.90c. Gasoline has been moderately active and firm; 86 degrees in 100-gallon drums 20c., drums \$8.50 extra. Naphtha has been in fair demand and firm; 73@76 degrees in 100-gallon drums 20c., drums \$8.50 extra. Naphtha has been quiet and easier at 45@45½c. Rosin has been dull and easier; common to good strained \$3.10.

TOBACCO.—There has been a somewhat better inquiry for domestic leaf, though the sales during the week have as a rule been limited to small lots to fill immediate needs. A more cheerful feeling, however, has prevailed of late, partly because of reported improvement in other branches of trade. A larger business also has been reported in Sumatra. Havana has been quiet. Prices have as a rule been steady. COPPER has been quiet and steady; lake 12¾@12½c.; electrolytic 125%@12¾c. Lead has been quiet and easy at 4.22½@4.27½c. Spelter has been quiet and steady at 4.50@4.60c. Tin has been dull and easy; Straits 29½c. Iron has been easier and more active. No. 1 Northern \$16.50@\$17 and No. 2 Southern \$15.75@\$16.25.

#### COTTON.

Friday Night, May 22 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 53,068 bales, against 50,379 bales last week and 59,126 bales the previous week, making the total receipts since the 1st of September 1907, 7,768,277 bales, against 9,434,142 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,665,865 bales.

Speculation in cotton for future delivery has been less active, but the week has been characterized by not a little irregularity, the swing of prices at times being violent. At first a further rise occurred under the stimulus of continued strength and activity in Liverpool, unfavorable private crop reports from the Southwest, where heavy rains were reported to have caused considerable damage in some localities, firm spot markets at the South and aggressive buying by prominent Wall Street people and large spot interests. Increasing strength of the statistical position was also a factor in the rise. But the weather news, as officially reported, has been in the main favorable, and leading Wall Street and local interests sold heavily on the rise, causing a sharp break. Room traders hammered aggressively and uncovered stoploss orders, the execution of which accelerated the decline. Liverpool, too, became surprisingly weak, and the spot sales there fell off. Heavy selling orders were received from the English market. New Orleans sent large selling orders. Wall Street interests were credited with having taken a bearish position on the market. There were rumors of orivate settlements of shorts and the premium on July over October was materially reduced. A large Chicago house announced a cut in dry goods prices. On Thursday, however, came a sharp rebound. Well-known Wall Street interests, it was reported, covered their shorts and again took the long side. Apparently they are merely scalping the announced a cut in dry goods prices. On Thursday, however, came a sharp rebound. Well-known Wall Street interests, it was reported, covered their shorts and again took the long side. Apparently they are merely scalping the market, only on a large scale. Prominent spot interests, too, bought freely, and local and Southern shorts covered. Commission houses were good buyers of the new crop months. There was a fear of bad weather and the spot markets at the South showed noteworthy firmness, with reports of a good inquiry and the offerings light. Another factor which had not a little influence was the report from Fall River that the operatives had voted to accept a reduction in wages and that the mills would resume full time as soon as possible. Reports from the local dry goods market were favorable. New England spinners on the declines are buying from the local stock. They are said to have taken considerable of the low grades during the week and the supply of certificated cotton is steadily diminishing, a fact which tends to restrain short selling. To-day prices advanced at first. The Liverpool advices were surprisingly strong. Large spot interests bought July and October, Wall Street bought and shorts covered. Liverpool and New Orleans sent buying orders. Later on came a decline under heavy liquidation attributed largely to prominent Wall Street interests. Room traders hammered and commission houses sold. The weather was favorable in the main. July was relatively strong throughout the day. closing 60 points houses sold. The weather was favorable in the main. July was relatively strong throughout the day, closing 60 points over October. Spot cotton has been quiet. Middling uplands closed at 11.10c., showing an advance for the week of 10 points.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	Middling Basis Good mid. tinged Even
Strict mid. fair 1.50 or	Strict low mid e_0.30 off Strict mid.tinged c_0.20 off
Middling fair 1.25 or	Low middling 1.00 off Middling tinged 0.30 off
Strict good mid 0.75 or	Strict good ord 1.50 off Strict low mid. ting.1.00 off
	Good ordinary 2.00 off Low mid. tinged 1.50 off
Strict middling 0.25 or	Strict g'd mid. tgd_0.35 on Middling stained1.25 off

The official quotation for middling upland cotton in the New York market each day for the past week has been: May 16 to May 22— Sat. Mon. Tues.T Wed. Thurs. Fri Middling upland 11.00 11.00 10.93 10.90 11.00 11.10

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening from the South denote that rain has fallen in most localities the past week, and at some points the precipitation has been excessive. The temperature has been seasonable. Complaints that recent heavy rains have retarded the development of cotton come from portions of Texas and some districts elsewhere. At a number of points improvement in the crop is noted.

improvement in the crop is noted.

Galveston, Texas.—The crop has been retarded by recent heavy rains and lack of sunshine except in Southwest Texas, where the crop is doing well. Hail storms have caused damage in a few localities in Central and North Texas. It has rained on two days of the week, the rainfall being inappreciable. The thermometer has averaged 77, the highest being 82 and the lowest 72.

Abilene, Texas.—It has rained on one day the past week, the rainfall being twenty-four hundredths of an inch. The thermometer has averaged 79, ranging from 60 to 98.

Brenham, Texas.—We have had heavy rain on one day during the week to the extent of one inch and sixty-nine hundredths. The thermometer has ranged from 66 to 90, averaging 78.

hundredths. The thermometer has ranged from 60 to 50, averaging 78.

Corpus Christi, Texas.—We have had no rain the past week, Average thermometer 79, highest 86, lowest 72.

Cuero, Texas.—We have had rain on one day during the past week, the precipitation being ninety-nine hundredths of an inch. The thermometer has averaged 76, the highest leavest 81.

of an inch. The thermometer has averaged 70, the nignest being 91 and the lowest 61.

Dallas, Texas.—Rain has fallen on one day during the week, the rainfall reaching twenty-three hundredths of an inch. The thermometer has averaged 77, ranging from 62 to 92

Fort Worth, Texas.—We have had rain on two days during the week, the precipitation reaching sixty hundredths of an inch. The thermometer has ranged from 64 to 90, averaging 77

Henrietta, Texas.—We have had rain on one day during the past week, to the extent of seventy-five hundredths of an inch. Average thermometer 80, highest 94, lowest 65.

Huntsville, Texas.—We have had rain on one day during the week, the rainfall being one inch and eight hundredths. The thermometer has averaged 79, the highest being 92 and the lowest 65.

d the lowest 65 Kerrville, Texas And the lowest 65 Kerrville, Texas —We have had no rain the past week. The thermometer has averaged 83, ranging from 67 to 98. Lampasas Texas.—We have had excessive rain on three days during the week, the precipitation reaching three ches and three hundredths.

The thermometer has ranged cm 60 to 96, averaging 78.

Longview, Texas.—We have had showers on three days of the past week, the rainfall reaching fifty-four hundredths of an inch. Average thermometer 77, highest 90, lowest 64. Luling, Texas.—We have had rain on one day during the week, the precipitation being thirty-four hundredths of an inch. The thermometer has averaged 80, the highest being 93 and the lowest 66.

93 and the lowest 66.

Nacogdoches, Texas.—We have had rain on two days of e week, the rainfall reaching one inch and twenty-five indredths. The thermometer has averaged 75, ranging hundredthe from 63 to 86.

Palestine, Texas.—We have had heavy rain on two days of the week, the rainfall being one inch and thirty-six hundredths. The thermometer has ranged from 64 to 88, averaging 76.

Greensboro, North Carolina.—We have had rain on five days during the past week, the rainfall being one inch and ninety-two hundredths. Average thermometer 74, highest 91 and lowest 58. 91 and lowest 58.

Raleigh, North Carolina.—Rain has fallen on five days of the week, to the extent of one inch and fifty hundredths. The thermometer has averaged 74, the highest being 90 and the lowest 58.

and the lowest 58.

GOVERNMENT WEEKLY WEATHER REPORT.—
Mr. James Berry, Chief of the Climatological Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending May 18, summarizing them as follows:

The temperature conditions during the week ending May 18 1908 were unfavorable in the Pacific Coast States and Plateau regions. Freezing temperatures occurred over a large part of the last-named districts and light to heavy frosts were general. Highly favorable temperatures prevailed in the principal agricultural districts east of the Rocky Mountains, Freezing temperature occurred in the interior of northern New England and frosts in northern New York during the latter part of the week. A large part of the west Guif States and portions of the upper Missourl Valley suffered from heavy rains and overflows, while portions of the South Atlantic States need moisture. Destructive local storms occurred in portions of the central valleys and west Guif States. The sunshine was below the average on the Pacific Coast, generally in the northern districts east of the Rocky Mountains, and in the central and west Guif States. There was ample sunshine in the lower Missourl, central Mississippi and Ohlo valleys and generally throughout the Atlantic Coast States.

FALL RIVER WAGE SCALE.—Fall River cotton mill operatives, as we intimated last week would be the case, have assented to the new wage schedule which goes into effect on Monday next. The new scale under the sliding agreement will be on the basis of 19.66 cents per cut for weaving, or a reduction of 17.94% from the wage prevailing during the past six months, and will be in force until November next, when a new agreement will be entered into in precisely the same manner as the present adjustment has been made. It is currently reported that with the view of offsetting as far as possible the important reduction in wages the new scale entails, the managers of the mills will put them on a full-time schedule as soon as they can find warrant for doing so. FALL RIVER WAGE SCALE.—Fall River cotton mill warrant for doing so.

#### BREADSTUFFS.

Designation of the second Friday, May 22 1908.

Prices for wheat flour have declined, though the changes have not as a rule been very important. There has been some improvement in the demand of late as a result of the concessions, but the sales have been limited to fill lots for immediate the concessions. concessions, but the sales have been limited to fill lots for immediate use. Export trade has continued quiet. At the large milling centres at the Northwest and the Southwest a somewhat better business has been done of late, though there is still much room for improvement. The output of the three spring-wheat mills for the past week was larger than in the previous week. At Minneapolis a somewhat better export demand is reported. Rye flour and corn meal have been more active and firmer.

Wheat has shown irregularity, but of late the tone has been stronger in the main, owing in no small measure to aggressive buying by leading elevator interests at the West. There have been numerous reports in circulation, too, of

been stronger in the main, owing in no small measure to aggressive buying by leading elevator interests at the West. There have been numerous reports in circulation, too, of damage to the crop in Kansas by Hessian fly. Moreover, the export demand has increased and Minneapolis and Duluth have reported a brisk demand from the mills at strong prices, while stocks at the two Northwestern markets have shown a noteworthy diminution. The foreign market advices have on the whole been favorable to bullish interests, especially those from Liverpool. Unfavorable weather has been reported in Roumania and Bulgaria as well as in some other parts of Europe, a fact which has not been without a certain effect on sentiment. Reports in regard to the winterwheat yield in Russia, too, have been favorable, and official estimates of the yield in India make it clear that the crop will fall considerably short of the previous one. The yield in the Punjab is estimated at only \$2,560,000 bushels, against 120,800,000 last year. This, with the estimated crop in the United Provinces nearly two-thirds of the total grain area of India, points to a yield for the two districts of 145,536,000 bushels, as compared with 212,164,000 last year, or a decrease of over 66,000,000 bushels. The sensational strength of the corn market at Chicago has also had a bracing effect on wheat. Large commission houses have loved deverting to of the corn market at Chicago has also had a bracing effect on wheat. Large commission houses have bought and shorts have covered freely. Supplies in the world continue to diminish at a rapid rate. During the past week the decrease was over 5,000,000 bushels as compared with a decrease in the same time last year of less than 300,000 bushels. On the other hand, the weather has been more favorable, and at times prices have reacted sharply under heavy liquidation. The crop accounts moreover have in the main been favorable. It is not believed that the Hessian fly has caused any widespread damage in the Southwest. The receipts, too, have increased at times. Cutting of new winter wheat, it is stated, will commence in parts of the Southwest on June 1. The reports in regard to spring wheat have been almost

uniformly bearish. During much of the time the cash trade has been rather quiet. The Argentine shipments continue on an unexpectedly liberal scale. To-day the market was quiet with narrow changes. Early in the day a slight decline occurred on disappointing cables, liberal Argentine shipments, generally favorable weather and crop reports and liquidation. Later a rally took place on buying by cash interests and commission houses and covering of shorts.

#### THE DRY GOODS TRADE.

New York, Friday Night, May 22 1908.

The primary cotton goods market has been the scene of much greater activity during the past week than for some

time, owing mainly to the large influx of buyers attracted by the Arnold Print Works auction sale and the many special offerings of seasonable fabrics by other houses. Generally by the Arnold Print Works auction sale and the many special offerings of seasonable fabrics by other houses. Generally speaking, the auction sale was regarded as a success in that all offerings were disposed of, and while some of the prices realized did not come up to expectations, this was due principally to the fact that the stylings were in many instances over a year old and consequently more or less out-of-date. The sale was viewed with satisfaction by other houses, as it served to distribute a large quantity of goods which had been hanging over the market and had been a constant menace. The result of other special sales of wash goods was mostly also regarded as satisfactory, and a large volume of goods was disposed of. Another interesting development during the week was a revision in the price of prominent lines of bleached goods, which was followed by such heavy buying that the market almost immediately became firmer and prices were advanced ½c. a yard. Little attention was paid to a circular issued by a large Western jobbing house, offering to sell goods at much below agents' lowest prices, as it was regarded as an advertising scheme more than anything else. The volume of business throughout the market generally continued to show signs of improvement, and further advances were recorded in print cloths and heavy brown cotton goods. Export business was steady, with the outlook for the future brighter. The new wage schedule in the cotton mills at Fall River, under the sliding-scale agreement which goes into effect next Monday calls for a reduction of 17.94%: it has brighter. The new wage schedule in the cotton mins at Fair River, under the sliding-scale agreement which goes into effect next Monday, calls for a reduction of 17.94%; it has been accepted by the Textile Council. Business in men's wear woolen and worsted goods has been of moderate di-mensions, but dress goods have been very quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods form this port for the week ending May 16 were 3,111 packages, valued at \$250,601, their destination being to the points specified in the tables below:

Sea, 4.70-yard sheetings to China and standard drills to India; in almost all cases the level of prices is slightly higher than what would have been accepted a few weeks ago. There has been some moderate advance ordering of wide sheetings, sheets and pillow cases, and jobbers have shown more interest in cotton linings. Staple duck has been more active and firmer, and coarse, colored cotton goods have moved somewhat more freely. Domets have met with an improved demand for fall from jobbers. The expected revision of staple print and gingham prices has not yet materialized, and in the meantime goods are being shipped on memorandum. Print cloths have been advanced from 1/2c. to 1/2c., the latter on 39-inch 68x72s, and steady sales have been made for delivery up to August. livery up to August.

WOOLEN GOODS.—Duplicate ordering of men's wear heavy-weight woolen and worsted goods has continued on a fairly heavy scale again during the week, but, as in the past fairly heavy scale again during the week, but, as in the past few weeks, it has again been very unevenly distributed, with the result that, while some mills have been able to start machinery running full time, others find themselves in a very unsatisfactory position. Most of the orders so far received have been for the better class of cutters-up, and while they have been fairly numerous, they have been mostly for smaller yardages than had been expected, and for the more popular fabrics ranging from \$1 to \$2 rather than for the higher-priced goods. While there are reports of some business for the new spring season having already been taken, there is a decided disposition to withhold openings beyond the usual time, owing to the lateness of the heavy-weight season. There is a good deal of discussion as to how woolens are faring as compared with worsteds, and it would seem that season. There is a good deal of discussion as to now woolens are faring as compared with worst ds, and it would seem that while orders for the latter are by far the more numerous, the former are doing relatively better than in the past. Dress goods continue very inactive, and it is too early as yet to expect otherwise. In the meantime, there are reports of some lines being sold up, but this is only in exceptional cases.

FOREIGN DRY GOODS.—Higher grades of imported woolen and worsted dress goods are meeting with a fair demand. Silks and ribbons show some signs of improvement. The demand for linens for fall is more active. Spot burlaps are steady, but prices for future delivery are slightly easier.

Bayou Terre-aux-Boeufs Drainage District (P. O. St. Bernard), St. Bernard Parish, La.—Bonds Declared Valid by District Court.—On May 7 Judge N. H. Nunez of the Twenty-ninth Judicial District Court upheld the validity of the \$100,000 bonds voted in April 1907 for the purpose of establishing a modern drainage and irrigation system in the interior district of St. Bernard from Poydras to Lachinche. The decision was rendered in a friendly suit instituted by Charles Esteves a property tax-payer to test the legality. the decision was rendered in a friendly suit instituted by Charles Esteves, a property tax-payer, to test the legality of the bond issue and the levying of a special tax of 5 mills for the payment of the same. According to New Orleans papers the decision of Judge Nunez was based on the failure of the plaintiff to commence suit within six months after the election was held, as provided by law.

Henrylyn Irrigation District, Col.—Purchase of Water Rights.—According to the Denver "Republican" of April 29, this district completed arrangements on April 28 with the Intermountain Water Co. for the purchase of certain water rights of that company in the counties of Grand and Clear Creek. The price paid for these rights is \$112,000, payable in bonds of the irrigation district. The amount of water transferred, including the storage of out-of-season water, is capable of irrigating 200,000 acres. This amount supplemented by the original Platte River filing of 50,000 makes a total of 250,000 acres subject to irrigation. It is also stated that only 120,000 acre feet will be utilized at present; 20,000 acres to be applied between Golden and Denver and the remaining 100,000 to be placed in the neighborhood of Hudson and Keene, on the Burlington RR., in the southern part of Weld County. Hudson is 29 miles from Denver and Keene 37 miles, being not quite half way between Denver and Fort Morgan. Fort Morgan.

New York City .- Arrangements Made for the Sale of \$7, New York City.—Arrangements Made for the Sale of \$7,-000,000 4% Corporate Stock.—During the past week arrangements were made with J. & W. Seligman & Co. of this city, whereby that firm is given an option running into June on \$7,000,000 4% corporate stock at par and interest. These securities are the unsold portion of the \$13,000,000 4% stock offered, together with \$2,000,000 4% assessment bonds, on Aug. 12 1907. Owing to the financial conditions at that time, the city was successful in disposing of only \$2,573,060 of the 50-year stock and \$140 425 of the assessment bonds. of the 50-year stock and \$140,425 of the assessment bonds. See V. 85, p. 428. The bonds were subsequently offered over the counter and a number of small lots were disposed of to private investors. Still further amounts were sold to the to private investors. Still further amounts were sold to the sinking fund and to contractors in payment of their claims against the city for work done.
